Candidates seeking certification in administration through the 18 hour add-on route must complete the requirements by September 1, 1997. If there are extenuating circumstances, students may request an extension through December 31, 1997, on an individual basis. After this date, the completion of an approved program in education leadership or school administration and a passing score on the MAB would be required for provisional certification.

5. TRANSITION IN ASSESSMENT PROCESS

The assessment process for new administrators will be transitioned from the assessment center model to the new administrator instrument (MAB) being developed by Educational Testing Service. Until July 1, 1997, the assessment center will be the only process used for provisional administrator evaluation. After this date, the assessment center will be conducted only for those who need to be reassessed. All other candidates will take the new assessment (MAB). A "safe to practice" score based on the pilot conducted by ETS should be set for candidates taking the test between July 1997 and July 1998. This score should be raised significantly in July 1998 based on an analysis of scores obtained during the first year of test administration. It is further recommended that the score on the new administrator assessment instrument should replace the required score on the NTE for certification in administration.

2. Any complaint seeking the denial of issuance, revocation or suspension of a certificate/license shall be by sworn affidavit filed with the Commission.
3. Upon receipt of such complaint or of a written appeal from the denial of an application for certification/license, the Executive Secretary, or other designee, of the Commission shall fix a date, time and place for the hearing of the complaint or appeal, and will furnish to the applicant/certificate/license holder by certified mail, or by any other manner of service authorized by law, a copy of the complaint and notice of the date, time and place for the hearing, which date shall be not less than fifteen (15) days nor more than forty-five (45) days from the date of such notice, unless otherwise agreed.

hours prior to the hearing. Any additional continuances are required to be presented by personal appearance before the Commission and may be granted only by the Commission.

5. Parties appearing at the hearing may be represented by legal counsel, at their own expense, and may produce witnesses and cross examine witnesses. It will be the responsibility of each party to secure the attendance of such witness or witnesses as each party deems necessary or appropriate; and any expense connected with the attendance of such witnesses will be born by the party responsible for the attendance of the witnesses. Witnesses who are 18 years of age or younger must be accompanied by a parent or legal guardian to the hearing.
6. At least five (5) days prior to the hearing, parties represented by counsel and/or producing witnesses will provide a list containing the name, address, and telephone number of counsel and/or witnesses, and seven copies of all exhibits that will be produced at the hearing, to the other party or parties and to the Commission.
7. The Commission or its sub-committee, in order to prevent cumulative oral evidence, may require any portion of the evidence to be submitted in the form of depositions or affidavits; and in case affidavits are received, an opportunity to present counter-affidavits shall be provided.
8. The Commission or its sub-committee may, by an affirmative vote of three-fifths of all members present and pursuant to the Mississippi Open Meetings Act (MS Code 25-41-7), enter into executive session for purposes of any hearing held under these rules.
9. The Commission or the sub-committee shall cause to be made stenographic notes by a certified court reporter of the proceedings, which notes shall not be transcribed until and unless an appeal is taken from the decision of the Commission or sub-committee.
10. In conducting a hearing, the Commission or its sub-committee shall not be bound by common law or by statutory rules of evidence or by technical or formal rules of procedure, except those provided herein, but may conduct such hearing in such manner as to best ascertain the rights of the parties; provided, however, hearsay evidence, if admitted, shall not be the sole basis for the determination of facts by the Commission or its sub-committee.
11. The Commission or its sub-committee shall make its decision on the basis of the matters presented before it, and shall notify all parties by certified mail of its decision and reasons therefore within fifteen (15) days of the conclusion of the hearing. The decision shall specify the date any revocation or suspension of a certificate/license shall be effective.

12. The decision of the Commission or its sub-committee shall be final, unless the aggrieved party appeals to the State Board of Education within ten (10) days of the decision of the Commission or its sub-committee. The appeal shall be on the record previously made before the Commission or its sub-committee, unless otherwise provided by rules and regulations adopted by the State Board of Education.
13. An appeal from the action of the State Board of Education shall be filed in the Chancery Court of the First Judicial District of Hinds County, Mississippi, within thirty (30) days after notification of the action by the State Board of Education is mailed or served in accordance with 37-3-2, Mississippi Code of 1972.
14. A person whose license has been revoked or surrendered on any grounds except criminal grounds may petition for reinstatement of the license after one (1) year from the date of revocation or surrender, or after one-half (1/2) of the revoked or surrendered time has lapsed, whichever is greater. A person whose license has been suspended on any grounds or violations under Section 37-3-2 (12) of the MS Code, Annotated as Amended, may be reinstated automatically or approved for a reinstatement hearing, upon submission of a written request to the commission. A license suspended, revoked or surrendered on criminal grounds may be reinstated upon petition to the commission filed after expiration of the sentence and parole or probationary period imposed upon the conviction as evidenced by a certified court order submitted by the petitioner.
15. A revoked, suspended or surrendered license may be reinstated upon satisfactory showing of evidence of rehabilitation. The commission shall require all who petition for reinstatement to furnish evidence satisfactory to the commission of good character, good mental, emotional and physical health and such other evidence as the commission may deem necessary to establish the petitioner's rehabilitation and fitness to perform the duties authorized by the license.
16. A person may voluntarily surrender a license. The surrender of such license may result in the commission recommending any of the above penalties without the necessity of a hearing. However, any such license which has voluntarily been surrendered by a licensed employee may be reinstated by a unanimous vote of all members of the commission.
17. Prior to being scheduled to appear before the Commission, or its subcommittee, any person who petitions for reinstatement of licensure must file with the Department of Education, Office of Educator Licensure a completed Application for Reinstatement including all required documentation. Submission of the completed Application for Reinstatement including all required documentation does not guarantee that the Commission, or its subcommittee, will grant the petition for reinstatement of the educator's license.

18. Reinstatement applicants appearing at the reinstatement hearing may be represented by counsel, at their own expense, and may produce witnesses and cross-examine witnesses. It will be the responsibility of each party to secure the attendance of such witness or witnesses, as each party deems necessary or appropriate; and any expense connected with the attendance of such witnesses will be born by the party responsible for the attendance of the witnesses. The Commission, or its subcommittee, will consider all evidence presented at the reinstatement hearing.

Reporting Instructions for School District Superintendents

Should any of the previously named infractions occur in your jurisdiction result in a felony or sex offense conviction in a court of law (in or out-of-state), please complete Appendix C reporting form and submit to the Office of Educator Licensure at the Mississippi Department of Education within ten days. Failure by the school district to report to the OEL within 10 working days, however, does not negate the continuing reporting duties by the Superintendent as required by law, or supersede or affect the statutory authority of the Commission on Teacher and Administrator Education, Certification and Licensure and Development from suspending or revoking an educator license pursuant to Miss Code Ann Section 37-3-2. MDE will secure certified court records in the case and proceed with a disciplinary hearing before the Certification Commission to determine if the license should be revoked.

Should any of the previously named infractions occur in your jurisdiction that do not result in a felony or sex offense conviction in a court of law, please follow this procedure for reporting the infraction to the Mississippi Department of Education:

1. Initiate an internal investigation in your district and gather appropriate documentation of the infraction.
2. Should the investigation exceed ten working days from the alleged infraction, submit just the notarized Appendix C reporting form to ensure timely reporting of the infraction. Other investigative documents can be sent in once the investigation is complete.
3. Attach any documentation pertinent to the case, such as copy of the school board minutes showing action taken, correspondence between the district and the educator, signed affidavits regarding facts of the case, etc. Affidavits should be signed and notarized.

Once submitted to the Office of Educator Licensure (OEL) at the Mississippi Department of Education, OEL will contact the district if additional documentation is needed prior to a hearing. A disciplinary hearing will be scheduled before the Certification Commission to determine if the license of the educator should be revoked or suspended. School district personnel with first-hand knowledge of the infraction would need to be present at the hearing to testify to the facts of the case.

Rule 26.1 Cost Reimbursement/Salary Supplements. Policy and procedure salary supplements and process cost reimbursement for master teacher certificates, national certified school counselors and certificate of clinical competence for speech pathologists and audiologists and national school nurse certification.

Introduction. The maximum salary supplement for any individual under this policy is limited to \$6,000 per school year.

1. MASTER TEACHER CERTIFICATE - \$6,000 SALARY SUPPLEMENT

Any licensed teacher who has met the requirements and acquired a Master Teacher Certificate from the National Board for Professional Teaching Standards shall receive a \$6,000 salary supplement. The teacher must be employed as a teacher and not as an administrator by a local school board, the Mississippi Board of Education or a state supported university or college when such institution is providing a program of education in accordance with Section 37-23-31, Mississippi Code of 1972 (Ann.). The term teacher is defined to include any teacher who is required by law to obtain a teacher's license from the Mississippi Board of Education and is assigned to an instructional area of work as defined by the State Department of Education the equivalent of a minimum of three (3) normal periods per school day.

In the 1999-2000 and 2000-2001 school years, the teacher will be entitled to the full \$6,000 salary supplement if the certificate is awarded to the teacher prior to April 15 of the current school year and the teacher's district time is reported as 100 percent on the district personnel report for the school year in which the supplement is being requested. The salary supplement will be prorated when the reported district time is less than 100%.

Beginning with the 2001-02 school year and in school years thereafter, a teacher will receive the full \$6,000 salary supplement if the certificate is awarded to the teacher prior to October 15 and the teacher's district time is reported as 100 percent on the district personnel report. The teacher will be entitled to a prorated salary supplement of \$3,000 beginning with the second school term if the certificate is awarded after October 15 but prior to February 15 of the school year and the teacher's district time is reported as 100 percent on the district personnel report. The salary supplement will be prorated when the reported district time is less than 100%.

The employer must establish a process that identifies all teachers who have successfully obtained the Master Teacher Certificate from the National Board for Professional Teaching Standards. Upon identifying those teachers, the employer must submit a letter to the Office of Financial Accountability requesting funds to pay the salary supplement. The letter must list the name, social security number, percent of district time as reported on the personnel report and the amount of salary supplement for each teacher for which the employer is requesting funds.

For teachers who the salary supplement is being initially requested, the employer must provide a copy of the candidate notification letter contained in the Candidate Score Report and, when available, a copy of the Master Teacher Certificate both of which are issued by the National Board for Professional Teaching Standards.

2. MASTER TEACHER CERTIFICATE - PROCESS COST REIMBURSEMENT

The teacher shall be reimbursed one (1) time for the actual cost of completing the process of acquiring the Master Teacher Certificate, regardless of whether or not the process resulted in the award of a Master Teacher Certificate. The employer, an individual or entity may pay the cost of completing the process on behalf of the teacher. However, the Department of Education shall only reimburse the employer. If an individual or entity has paid the cost of completing the process for the teacher, the employer may agree to directly reimburse the individual or entity for such cost on behalf of the teacher. If the cost of completing the process is paid by the employer, an individual or entity and the teacher fails to complete the process, the teacher shall be liable to the employer, individual or entity for all amounts paid on behalf of the teacher.

The employer must establish a system that identifies all teachers that have completed the process of acquiring the Master Teacher Certificate, regardless of whether or not the teacher successfully obtained the certification. The employer must submit a letter to the Office of Financial Accountability requesting reimbursement for the teacher for the cost of completing the process. A copy of the candidate notification letter contained in the Candidate Score Report issued by the National Board for Professional Teaching Standards along with proof of expenditure (canceled check or receipt from the National Board for Professional Teaching Standards) must accompany the letter.

3. NATIONAL CERTIFIED SCHOOL COUNSELOR - \$6,000 SALARY SUPPLEMENT

 - i. Sufficient space must be available. Each trailer is 60 feet long, 10 feet wide and 12½ feet high. Sufficient space should be available for maneuvering since sharp turns are impossible to make. Be certain there is enough lateral, vertical, and longitudinal clearance plus a margin of safety for entrance to the site.
 - ii. The ground should be level and a hard surface is necessary due to the weight of the equipment.
 - iii. Power requirements for proper operation of the driver education simulator equipment may influence the selection of the site. A 230 volts, alternating current, three wires, (115 volts to neutral) single phase is required. This source should be capable of providing 100 amperes per line or approximately 25 KVA. It is important that the voltage be 230 volts and not 208.
 - iv. All of the arrangements concerning the power should be left in the hands of the school electrician or to a competent electrical contractor. A qualified person should perform the work since power of this nature is dangerous and expensive. Such a person will know the local and state laws which must be met for reasons of safety and insurability. It is important that the power into the unit should not be turned on without the State Department of Education Technician present.
 - v. Arrangements should be made to locate a fuse box near the power input connection of the trailer. From this external fuse (Circuit Breaker Box) 230 volts, 100 amperes, three number four wires can be run to the power disconnect plug on the front of the trailer. For permanent installation, the disconnect plug is removed and the wiring is made direct from the external fuse box to the internal circuit breaker panel.
 - vi. When the trailer arrives and is located at its predetermined site, the Education Department Technicians will position the trailer and level the unit. Also, a complete

check of the installation and the assurance of proper operation of the equipment will be made before turning the equipment over to the school.

8. Reports Required by the State Department of Education
 - a. DE-1, Application for Approval and for State-Aid for teaching Driver Education, shall be completed as follows:
 - i. One copy to be sent to the State Department of Education at the beginning of the regular school session and at the beginning of the summer session.
 - ii. One copy should be kept on file at the respective school.
 - b. DE-2, Application for Use of State-Owned Driver Trainer Simulator, shall be processed as follows:
 - i. Should be completed and returned immediately to the State Department of Education.
 - ii. Must be on file with the State Department of Education before a unit may be assigned to a school district.
 - c. DE-3 and DE-3A, Requisition for Reimbursement for Teaching Driver Education and Summary of Students Completing Driver Education, shall be completed as follows:
 - i. One copy must be submitted to the State Department of Education at the conclusion of each semester, at the end of the summer session, or upon completion of the course.
 - ii. A copy of this report should be retained at the respective school and school district superintendent's office.
 - d. DE-4, Driver Education Yearly Cost Report, shall be completed as follows:
 - i. One copy must be submitted to the State Department of Education at the end of the regular school session.
 - ii. One copy should be kept on file at the respective school.
9. Compliance Standards for Driver Education Training
 - a. No reimbursement will be made under this section for the instruction of pupils in driver education and training unless the respective school or school district has complied with the rules and regulations governing the establishment, conduct, and scope of driver education and training.
 - b. The State Board of Education, on recommendation of the State Superintendent of Education, reserves the right to revoke, modify, or amend these rules and regulations at such time as a majority of the members thereof deems necessary.

Rule 30.2 Reporting Unexcused Absences.

1. Pursuant to Mississippi Code 37-13-91, a parent, guardian or custodian of a compulsory-school- age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic for the period of time that the child is of compulsory-school-age. Mississippi Code Section 37-9-14(2)(u) states that School District Superintendents are “to comply in a timely manner with the compulsory education reporting requirements prescribed in Section 37-13-92(6).” The State Department of Education shall prescribe a uniform method for schools to utilize in reporting the unlawful absences to the school attendance officer.
 - a. An unlawful absence is an absence by any compulsory school-age child missing for thirty-seven (37%) or more of a school day, in which the absence is not due to a valid excuse for temporary nonattendance.
 - b. An unlawful absence is an absence by any compulsory school-age child who is removed from school for days missed as a result of disciplinary suspension. Absences due to suspension or expulsion shall not be excused by the school district superintendent, or his designee. A student that is absent due to suspensions or expulsions shall not be reported as truant.
2. Based on Section 37-13-91(6), the school district superintendent or his/her designee, shall report, within two (2) school days or within five (5) calendar days, whichever is less, the absences to the school attendance officers. Therefore, pursuant to Section 37-13-85(o), provides that the MDE shall adopt any other policies that the office deems necessary for the

enforcement of the Mississippi Compulsory School Attendance Law; however, the policies or guidelines shall not add or contradict with the requirements of Section 37-13-91. The superintendent, or his designee, also shall report any student suspensions or student expulsions to the school attendance officer when they occur and code them as “unexcused absences”. However, these absences will not be counted towards a student being identified as truant.

3. For the purpose of determining and reporting attendance, a pupil must be present for at least sixty-three percent (63%) of his/her instructional day, as fixed by the local school board, and defined by the student’s schedule, in order to be considered in full-day attendance.
4. Each of the following shall constitute a valid excuse for temporary nonattendance of a compulsory-school-age child enrolled in a public school, provided satisfactory evidence of the excuse is provided to the superintendent of the school district, or his designee:
 - a. An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.
 - b. An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.
 - c. An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.
 - d. An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child.
 - e. An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an administrative tribunal if the child is a party to the action or under subpoena as a witness.
 - f. An absence may be excused if the religion, to which the compulsory-school-age child or the child's parents adheres, requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion's observance is of such duration as to interfere with the education of the child.
 - g. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.

- h. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.
5. If a compulsory-school-age child is **participating in an authorized school activity** with the prior approval of the superintendent of the school district, or his/her designee, the student is considered **PRESENT** for average daily attendance reporting purposes. The activities include, but are not limited to:
- a. Official Organized Events Sponsored by the 4-H
 - b. Future Farmers of America
 - c. Junior Livestock Shows
 - d. Rodeo Events
 - e. Official Employment as a Page at the State Capitol

 - i. Music Festivals or Contest
6. A student's participation in an authorized school activity must be verified by one of the following:
- a. Student Schedule
 - b. Class Roster
 - c. Activity Roster
7. If a district superintendent fails to comply with the above guidelines, the following may occur:
- a. The School Attendance Officer may present evidence to the Director of the Office of Compulsory School Attendance Enforcement that a school superintendent has failed

to report unexcused absences in a timely manner. Such a report must be in writing and supported by written evidence.

- b. If no action is warranted, the Director of the Office of Compulsory School Attendance
- c. Enforcement will notify the School Attendance Officer in writing of the determination.
- d. If further action is warranted, the Director of the Office of Compulsory School Attendance Enforcement may recommend to the State Superintendent of Education or his/her designee, downgrading of the district's accreditation status.
- e. When information on file in the Mississippi Department of Education indicates that a school district may be in violation of a state law, the superintendent of the district will be informed in writing by appropriate staff in the Department responsible for monitoring compliance with of the compulsory school attendance law.
- f. School district officials will be given thirty (30) days from the date of receipt of notification to provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the compulsory school attendance law. If the written response includes appropriate evidence to correct or refute the alleged violation, the superintendent of the district will be notified by appropriate staff.
- g. The appropriate staff member in the Office of Accreditation will notify the superintendent of the district in writing of the verified violation. Although the accreditation status of the district may not be subject to change until the next assignment of annual district status, the superintendent is required to provide a written response specifying how and when the violation will be corrected.

Part 3 Chapter 31: Drug Testing, State Department of Education Staff

Rule 31.1 Drug Testing, State Department of Education Staff. In compliance with the Omnibus Transportation Employee Testing Act of 1991, the State Board of Education has developed the attached drug and alcohol policies and procedures. These policies and procedures shall be implemented and enforced.

The Mississippi Department of Education, hereafter referred to as the Department, recognizes that our employees are our greatest asset. Our employees are the key to our goal of providing the best possible education program for our students. To achieve our goal, and to maximize the skills and talents of our employees, it is important that every employee of the Department understand the dangers of drug and alcohol abuse and be aware of the new state and federal requirements concerning substance abuse. This policy statement should clarify our position on employee drug and alcohol use. This policy and procedure should not be construed as contractual in any nature.

1. POLICY OBJECTIVES:

- a. To create and maintain a safe, drug-free working environment for all employees.
- b. To meet the requirements of the Drug Free Workplace Act of 1988 and the Drug Free Schools and Community Act of 1986, as they relate to the use of alcohol, inhalants, cannabis, controlled substances and similar substances.
- c. To encourage any employee with a dependence on, or addiction to, alcohol or other drugs to seek help in overcoming the problem.
- d. To reduce problems of absenteeism, tardiness, carelessness and/or other unsatisfactory matters related to job performance.
- e. To reduce the likelihood of incidents of accidental personal injury and/or damage to customers, visitors or property.
- f. To meet the requirements of 49 C.F.R. part 40 and the Omnibus Transportation Employee Testing Act of 1991.
 - i. To reduce the likelihood that department property will be used for illicit drug activities.
 - ii. To protect the reputation of the Department and its employees.

Substance abuse is a serious threat to the Department and its employees. Though the percentage of substance abusing employees may be relatively small, practical experience and research

indicate that appropriate precautions are necessary. It is the belief of the Department that the benefits derived from the policy objectives outweigh the potential inconvenience to employees. The Department earnestly solicits the understanding and cooperation of all employees in implementing this policy.

The Department requires that all employees report to work without any alcohol or illegal or mind altering substances in their systems. No employee shall report for work or remain on duty when using any controlled substance, except when the use is pursuant to the instructions of a physician who has advised the employee that the substance does not adversely affect the employee's ability to perform in a safe manner. No employee shall use alcohol while on duty. Further, outside conduct of a substance abuse-related nature which affects an employee's work, the Department's relationship with the government or reflects badly on the Department is prohibited. Employees must inform their supervisor when they are legitimately taking medication which may affect their ability to work, in order to avoid creating safety problems and violating the Drug and Alcohol Policy.

The Department also prohibits employees using, possessing, manufacturing, distributing or making arrangements to distribute illegal drugs while at work or on department property.

2. ENFORCEMENT of OMNIBUS TRANSPORTATION ACT

The following policies are related only to those employees, applicants, and contractual workers subject to 49 C.F.~ Part 40 and the Omnibus Transportation Employee Testing Act of 1991. In order to enforce these rules, the Department reserves the right to require the above employees to submit, at any time an employee is on duty or at any time an employee may normally be called to be on duty, to drug tests to determine the presence of prohibited substances. The State Board of Education is required to develop, implement and enforce a drug and alcohol policy for their employees as a condition of compliance with the Omnibus Transportation Employee Act of 1991.

Pursuant to Board policy and regulations, applicant testing may be required. All current employees may be required to undergo testing where the Board has reasonable suspicion to believe an employee has violated its Alcohol and Drug Policy, and/or on a random basis without advance notice. No employee shall perform any job-related duties within four hours after using alcohol. Employees are also required to report all injury or damage related accidents involving Department property or personnel or during Department- related activities and may be required to submit to alcohol screening within two (2) hours and to drug screening within thirty-two (32) hours of a reportable accident. Employees who return to work following rehabilitation will be required to undergo return to duty/follow up testing in addition to the general Department testing requirements.

The Department also reserves the right to search desks, cabinets, tool boxes, vehicles, including personal vehicles brought on the Department's property, bags or any other property at the worksite or in vehicles when the Department has reasonable cause to believe an employee has violated its Alcohol and Drug Policy.

Violation of these rules, including testing positive, will subject the employee to discipline, including discharge. Refusal to cooperate with the Board in any test investigation will result in discipline, including discharge as appropriate under the applicable state and federal laws.

All information, interviews, reports, statements, memoranda and test results, written or otherwise, received by the employer through its drug and alcohol testing program are confidential communications and may not be disclosed except in accordance with the Policy Consent/Release Form and Federal Regulations 49 C.F.R. 40 et seq and 49 C.F.R. 382 et seq.

Any questions should be directed to the Personnel Officer, who has been assigned by the State Superintendent of Education and/or the State Board of Education as the Drug Program Coordinator.

3. Mississippi Department of Education Drug and Alcohol Program Procedures

a. General Policy

Practical experience and research has proven that even small quantities of narcotics, abused prescription drugs or alcohol can impair judgment and reflexes. Even when not readily apparent, this impairment can have serious results, particularly for employees operating vehicles or potentially dangerous equipment. Drug-using employees are a threat to co-workers and themselves, and may make costly errors. For these reasons, the State

Board of Education has adopted a policy that all employees must report to work completely free from the effects of alcohol and/or the presence of drugs, unless used as prescribed by a physician.

b. Drug Use/Distribution/Impairment/Possession

All employees are prohibited from using, possessing, distributing, manufacturing, or having controlled substances, abused prescription drugs or any other mind altering or intoxicating substances present in their system while at work or on duty.

c. Alcohol Use/Possession/Impairment

All employees are prohibited from possessing, drinking or being impaired or intoxicated by alcohol while at work or on duty. While employees are prohibited from having any alcohol present in their system while on duty, a Breath Alcohol Concentration (BAC) of .04 will be accepted as presumptive evidence of intoxication. Additionally, mandated employees (employee's subject to provisions of 49 C.F.R Part 40 and the Omnibus Transportation Employee Testing Act of 1991) with a BAC of .02-.039 will be placed out-of-service for a period of no less than 24 hours. Evidential breath testing devices (EBTs) on the National Traffic Highway Safety Administration Conforming Products List will normally be used to determine BAC.

d. Off-Duty Conduct

Off-the-job use of drugs, alcohol or any other prohibited substances which results in impaired work performance, including, but not limited to, absenteeism, tardiness, poor work product, or harm to the Department's image or relationship with the government is prohibited. Employees should realize that these regulations prohibit all illicit drug use--on and off duty.

e. Prescription Drugs

The proper use of medication prescribed by a physician is not prohibited; however, the Department prohibits the misuse of prescribed (or over the counter) medications and requires all employees using drugs at the direction of a physician to notify the State Board of Education's Medical Review Officer (MRO), Dr. Howard M. Strickler, or their supervisor prior to beginning work where these drugs may affect their job performance, such as by causing drowsiness.

An employee or job applicant (with the exception of mandated employees) shall be allowed to provide notice to the Department of currently or recently used prescription or nonprescription drugs at the time of the taking of the specimen to be tested, and such information shall be placed in writing upon the employer's drug and alcohol testing custody and control form prior to initial testing.

f. Substance Screening

i. Applicants

Substance screening may be required for all final applicants. Applicants are required to sign a consent/release form before submitting to screening. Applicants will be disqualified for hire if they test positive, refuse to submit to a test, or refuse to execute the required consent/release form.

ii. All Current Employees

a) Reasonable Suspicion

All employees may be required to submit to screening whenever a supervisor observes circumstances which provide reasonable suspicion to believe an employee has used a controlled substance or has otherwise violated the substance abuse rules. The supervisor's determination that reasonable suspicion exists to require the employee to undergo an alcohol and drug test must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the employee.

The required observations for alcohol and/or controlled substance reasonable suspicion testing shall be made by a supervisor or designee who has been trained for at least 60 minutes on alcohol misuse and an additional 60 minutes on controlled substance misuse.

The supervisor or supervisors requesting testing shall prepare and sign written documents explaining the circumstances and evidence upon which they relied within 24 hours of the testing, or before the results of the tests are released, whichever is earlier. While one supervisor may request a reasonable suspicion test, when feasible, supervisors are encouraged to obtain a second supervisor as a witness.

b) Random Testing

The Department may conduct random unannounced screening of all employees. Tests of employees for illicit drugs will be conducted in a number equal to or greater than 50 percent of the affected work force--without advance notice--in any given 12 month period. Tests of employees for alcohol will be conducted in a number equal to or greater than 25 percent of the affected work force--without advance notice--in any given 12 month period. There will be no maximum number of samples that any one individual will be required to provide during the testing schedule. Subsequent testing will be conducted at levels equal to or greater than the initial testing level. Employers Drug Program Management, Inc. will provide computerized random sample lists to the Drug Program Coordinator. The list of employees in the random pool will be updated on a monthly basis. Employees will be required to report to the Department's designated collection site for testing immediately

following notification. Annually, the tests will be spread reasonable over 12 months.

All employees may be tested during the initial implementation of the program.

c) Post Accident Testing

Employees are required to immediately notify the Drug Program Coordinator of any accident resulting in injury or damage to Department property. The Department of Transportation (DOT) requires post-accident drug and alcohol testing following any accident which results in the: (1) loss of human life, or (2) receipt of a citation under State or local law for a moving traffic violation arising from the accident.

The Department may require an employee involved in any accident resulting in injury requiring more than simple first aid or resulting in damage to property, to undergo alcohol screening within 2 hours and drug screening within 32 hours of the occurrence of the accident. The Department will discipline any employee who fails to report an accident or submit to substance screening where required by law or this policy. The Drug Program Coordinator shall complete an Accident Report in compliance with Department policy and applicable laws and regulations.

d) Return to Duty/Follow up Testing

All employees referred for rehabilitation through administrative channels, or suspended for violation of this policy, may be subject to unannounced testing following return to duty for a period of 12 to 60 months. Such employees shall be tested at the frequency stipulated in the abeyance contract or as scheduled by the MRO. The employee will be tested a minimum of six (6) follow up tests during the first twelve months. Testing will be on a daily, weekly, monthly or longer basis at the discretion of the MRO and will be in addition to the other types of tests provided in this policy.

Employees testing at a level 0.04 BAC for alcohol or positive for drugs must be assessed by a Substance Abuse Professional (SAP), satisfy the recommendations of the assessment, test negative for drugs and below 0.02 BAC for alcohol and be released as drug free by the Medical Review Officer prior to returning to duty.

iii. Testing Procedures

a) General Guidelines

The State Board of Education and its lab shall rely, when practical, on the guidance of the federal Department of Transportation, Procedures for

Transportation Workplace Drug Testing Programs, 49 C.F.R. parts 40.1 through 40.39 and on the further guidance of the Omnibus Transportation Employee Testing Act provided in 49 C.F.R. Parts 382, 391, 392 and 395.

b) Substances Tested For All Employees

Employees may regularly be tested for: amphetamines, cannabinoids, cocaine, opiates, phencyclidine and alcohol. Testing for alcohol will also be conducted subject to the final provisions of the Omnibus Transportation Employee Testing Act of 1991. Employees may be tested for other substances without advance notice as part of a separate test performed by the Department for safety purposes. Such tests will be coordinated with the Drug Program Coordinator.

c) Testing Procedure

The State Board of Education reserves the right to utilize blood, hair, breath, saliva or urinalysis testing procedures. Only urinalysis and breath tests will be utilized in the pre- employment and random testing. All initial positive urine specimens will be confirmed by gas chromatography/mass spectrometry (GC/MS).

iv. Collection Sites

The Department will designate collection sites in areas where it maintains facilities or job sites where individuals may provide specimens.

v. Collection Procedures

The State Board of Education, Employers Drug Program Management, and the laboratory, have developed and will maintain a documented procedure for collecting, shipping and accessing urine specimens. The State Board of Education, EDPM and the laboratory will utilize a standard Urine Custody and Control Form for all employee drug testing. The State Board of Education, EDPM and the laboratory will utilize a standard Breath Alcohol Testing Form for all employee alcohol testing. A tamper-proof sealing system, identifying numbers, labels, and sealed shipping containers will also be used for drug sample transportation. Alcohol results will use approved tamper evident tape.

Collection sites will maintain instructions and training emphasizing the responsibility of the collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure as reasonable. A person who collects or takes a specimen for a drug test pursuant to this policy shall collect an amount sufficient for two (2) drug tests as defined by the Department of Transportation. Where the Department has an employee collect the specimen, the State Board of Education will provide instruction and training to that employee. All alcohol testing will be performed by a certified Breath Alcohol

Technician (BAT). All employees will also be required to execute the Department Applicant/Employee Consent Form.

vi. Occasions When the Collection Personnel Should Directly Observe the Specimen Being Provided

The Department has adopted the direct observation procedures as set out in Section 40.25 of the Department of Transportation regulations. An Employer or Medical representative at the collection site may directly observe an employee provide the specimen where there is reason to believe that an individual may alter or substitute the specimen. Section 40.25 (e)(2) sets out the only four circumstances where direct observation is appropriate:

- a) The employee has presented a urine specimen that falls outside the normal temperature range, and the employee declines to provide a measurement of oral body temperature by sterile thermometer, as provided in paragraph (f)(23) of this part, or the oral temperature does not equal or exceed that of the specimen.
- b) The last urine specimen provided by the employee (i.e., on a previous occasion) was determined by the laboratory to have a specific gravity of less than 1.003 and a creatinine concentration below .2 g/L.
- c) The collection site person observes conduct clearly and unequivocally indicating an attempt to substitute or adulterate the sample (e.g., substitute urine in plain view, blue dye in specimen presented, etc.).
- d) The employee has previously been determined to have used a controlled substance without medical authorization and the particular test is being conducted as a part of a rehabilitation program or on return to service after any required rehabilitation.

A second specimen should be obtained under direct observation wherever there is reason to believe that the individual may have altered or substituted the specimen.

Where necessary, a Department representative or medical personnel may obtain a specimen outside of a designated collection site (such as, at a public restroom at an accident investigation).

vii. Evaluations and Return of Results to the Department

The laboratory will transmit (by fax, mail, or computer, but not orally over the telephone) the results of all tests to the Department's MRO, Dr. Howard M. Strickler. The MRO will be responsible for reviewing the quantified test results

of employees and confirm that the individuals testing positive have used drugs in violation of Department policy. Prior to making a final decision, the MRO shall give the individuals an opportunity to provide a medical explanation for the positive test result either face to face or over the telephone. The MRO shall then promptly report to the Drug Program Coordinator which employees or applicants test positive.

viii. Request for Retest

Where a split specimen has been collected an employee may request a retest of the split specimen within 72 hours of notification of the final test result. Where only one sample is submitted for testing the employee may request a retest of the original sample within 72 hours after notification of the final test result. Requests must be submitted to the Drug Program Coordinator.

The employee may be required to pay the associated costs of retest in advance.

g. Release of Test Results

All information, interviews, reports, statements, memoranda and test results written or otherwise, received by the employer through its drug and alcohol testing program are confidential communications and may not be disclosed except in accordance with the Policy Consent/Release Form and Federal Regulations 49 C.F.R. et seq and 49 C.F.R. 382 et seq.

With the exception of those entities listed in the Federal Regulations, test results shall not be released by the State Board of Education, beyond the MRO and Department's management without the individual's written authorization. However, all employees will be required to execute a consent/release form permitting the Board to release test results and related information to the Unemployment Compensation Commission, or other relevant government agencies.

The MRO shall retain the individual test results for five (5) years.

h. Discipline

The State Board of Education will discipline, including discharge, employees for any violation of the policy, including refusing to submit to screening, to execute a release, or otherwise cooperate with an investigation or search by the Department. Disciplinary measures will be instituted in accordance with State Personnel Board regulations if applicable and state and federal laws.

All employees who test positive in a confirmative substance test will be subject to discipline up to and including discharge. Rehabilitation, at a pre-approved treatment provider, may be available to individuals who violate the policy. However, unless other

provisions are available to the affected individual, assistance will be limited to the degree of treatment provided within the Department's Employee Benefits Plan. The Drug Program Coordinator should be contacted for guidance.

No employee may be returned to regular duties after any rehabilitation or testing positive unless released for duty for the Department's MRO. Any employee returned to duty after violating the policy or testing positive will be subject to aftercare and random testing.

i. Employee Assistance Program (EAP)

The Board's EAP shall include education and training for supervisors who are authorized to determine reasonable suspicion testing. These supervisors must receive a minimum of 60 minutes on alcohol abuse and an additional 60 minutes of training on controlled substance use and abuse.

The training shall cover the physical, behavioral, speech and performance indicators of probable use and misuse of alcohol and controlled substances. Documentation of training attendance must be maintained.

The Drug Program Coordinator should be contacted for further guidance.

j. Investigation/Searches

Where a supervisor has reasonable cause to suspect that an employee has violated the substance abuse policy, he or she may inspect vehicles which an employee brings on the Board's property, lockers, work areas, desks, purses, briefcases, tool boxes or other belongings, and at locations where Department related activities are being conducted without prior notice in order to ensure a work environment free of prohibited substances. An employee may be asked to be present and remove a personal lock. Where the employee is not present or refuses to remove a personal lock, the Drug Program Coordinator will do so for him or her. The Board may release any illegal, or controlled drugs, or paraphernalia to appropriate law enforcement authorities.

All searches should be coordinated with the Drug Program Coordinator.

NOTE These procedures should not be construed as contractual in any nature. They represent the State Board of Education's current guidelines in dealing with a developing problem under evolving laws and facts, and may be changed in accordance with Department policy and state and federal law.

1. Authorization and Dissemination

Pursuant to Mississippi Code Section 37-61-33(3)(iii), As Amended, this policy provides rules and regulations for the administration of Education Enhancement Funds appropriated for classroom supplies, materials and equipment to be distributed to all eligible teachers within the state through the use of procurement cards. The intent of the policy is to allow individual teachers to expend such funds, as they deem appropriate, to support the overall goals of the school. Classroom supply funds may not be expended for administrative purposes. These funds may only be used to supplement, not replace, other local and state funds available for the same purpose.

2. Allocation of Funds

On or before September 1 of each year, local school districts shall determine and submit to the State Department of Education the number of teachers eligible to receive an allocation for the current year. The term "teacher" shall mean any employee of the school district who is required by law to obtain a teacher's license from the State Board of Education and is assigned to an instructional area of work, but shall not include a federally funded teacher. The term "teacher" includes all licensed regular teachers and licensed state or locally funded special education teachers, vocational teachers, gifted teachers, counselors and librarians. Procurement cards shall be issued with equal dollar amounts per teacher determined by the total number of qualifying personnel and the current state appropriation for classroom supplies with the Education Enhancement Fund combined with the total of any carryover amounts from the previous year's allocation.

3. Carry Forward of Funds

Teachers are encouraged to expend their funds in the year in which they receive them. Procurement cards will expire on March 31 of each year. If a teacher does not fully expend the allocation, the unexpended balance will carry forward to the next school year, combine with the next school year's allocation and the total will be allocated equally to all teachers in the state.

4. Documentation

School districts are required to maintain adequate documentation to demonstrate compliance with the distribution of the procurement cards. At a minimum, each district shall maintain a listing of all eligible teachers, the card number distributed to each teacher, and a copy of the signed Teacher Cardholder Agreement form.

5. Definitions

- a. Administrative Purposes - shall mean expenditures properly accounted for under expenditure function codes 2300, General Administration; 2400, Office of the Principal Services; and 2500, Business Services, as defined by the Office of the School Financial Services, in the Mississippi Department of Education in the Financial Accounting Manual for Mississippi Public School Districts.

- b. Classroom Teacher - shall mean any employee of the school district who is required by law to obtain a teacher's license from the State Board of Education and is assigned to an instructional area of work, but shall not include a federally funded teacher. The term "teacher" includes all licensed regular teachers and licensed state or locally funded special education teachers, vocational teachers, gifted teachers, counselors and librarians. Federally funded teacher is a teacher who is paid, in any part, with Federal funds.
- c. Instructional Area of Work - shall mean an area of work dealing directly with the provision of academic instruction, vocational instruction or guidance to students by an employee who is required by law to obtain a teacher's license from the State Board of Education. The instruction or guidance may be provided in the classroom or in another location, such as a library or a counselor's office. This definition applies to teachers, librarians and guidance counselors.

4. Students entering a Mississippi public school will not be required to pass any end-of-course Subject Area Test in a course for which the school accepts credit earned by the student in a private school as fulfilling the requirements for a Mississippi high school diploma, provided the private school is accredited regionally or by the state of Mississippi.

Rule 38.10 Recommended Non-Binding Mississippi School Nurse Salary Schedule. Pursuant to House Bill 1132 as passed in the 2007 Legislative Session, the Mary Kirkpatrick-Haskell – Mary Sprayberry Public School Nurse Act of 2007 states that, “the State Department of Education, through the Office of Healthy Schools, shall...develop recommended salary structure for school districts to use when hiring a school nurse.” In the absence of a salary scale of any kind for school nurses, the Office of Healthy Schools has recommended that districts either use the teacher salary scale when hiring school nurses, or – if recruitment dictates - pay based on a trend for their particular area. Most districts have used the teacher salary scale. The recommended non-binding salary schedule is *the teacher salary* scale simply adjusted for nursing degrees. It applies only to Registered Nurses. Rule 38.11 Nutrition Standards.

1. The Mississippi Department of Education recognizes that:
 - a. A crucial relationship exists between nutrition and health and nutrition and learning. The health and nutrition needs of growing students are met with USDA school meals programs.
 - b. As a minimum, school districts must follow all current and future requirements and recommendations of the USDA National School Lunch Program Meal Patterns and Nutrient Standards.
 - c. The 2005 Dietary Guidelines for Americans, USDA's My Pyramid (www.mypyramid.gov) and the USDA Healthier U.S. School Challenge provides nutritional guidance for school meals.
 - d. Schools must offer equal access to all meals or items served or sold under the National School Lunch & Breakfast Programs.
 - e. Students need adequate time to eat and enjoy meals served in schools.
 - f. Moving recess before lunch, through a simple schedule change, may provide many benefits for students especially in grades K-12.

- g. Family education will be the key to building a healthy future for all Mississippians. Families must embrace nutrition and wellness; it is crucial to the success of our efforts. Mississippi public schools offer the best resources, facilities and structure to promote family nutrition education.
 - h. Offering healthful foods and beverages in schools does not guarantee that students will choose them. Aggressive marketing techniques must inform students, teachers, administrative staff and most importantly, the public of the benefits of eating in the school cafeteria.
 - i. School districts are encouraged to participate in the Healthier U.S. School Challenge and become a USDA Team Nutrition School.
2. The Mississippi Department of Education intends that:
- i. Healthy food and beverage choices:
 - i. Schools shall increase fresh fruits and vegetables offered to students. A minimum of one fresh fruit or vegetable choice should be offered to students each day.
 - ii. School menus shall offer a minimum of three different fruits and five different vegetables weekly. Schools should try to serve dark green leafy vegetables or broccoli and/or orange vegetables (high in vitamin A) or fruits three times per week. A Vegetable Guidance List can be downloaded on the Office of Healthy Schools website at www.healthyschoolsms.org
 - iii. Schools shall offer milk choices with a maximum milk fat of 1%, unless USDA Regulations require a lower milk fat content. Flavored nonfat or low-fat, or milk shall contain no more than 160 calories per 8-ounce serving.
 - iv. Schools shall only offer 100% fruit and vegetable juice with no added sugar.
 - ii. Healthy food preparation.
 - i. Schools shall comply with the existing USDA NSLP/SBP meal pattern requirements. This includes meeting the minimum nutrient standards for calories, protein, calcium, iron, vitamin A, vitamin C and the maximum levels of 30% calories from fat and less than 10% calories from saturated fat. (USDA Food and Nutrition Services or www.fns.usda.gov)

 - iii. Not to exceed 30 percent over a school week
 - iv. Less than 10 percent over a school week
- iii. Schools shall develop and implement a food safety program by July 1, 2005. Every school shall develop a HACCP system plan as required by the Child Nutrition and WIC Reauthorization Act of 2004. (National School Lunch Act Section 9 (H)) Schools shall update their School Wellness Policy to include a food safety assurance program for all food offered to students through sale or service.
- iv. Schools shall secure a Food Service Operational Permit through the Mississippi State Department of Health for approval to operate under the National School Lunch/National School Breakfast Program.
- v. Mississippi State Department of Health conducts two School Food Facility Inspections per site each school year. The State Agency is required by federal regulations to submit a written report to the United States Department of Agriculture (USDA) Food and Nutrition Service reporting on the number of School Food Facility Inspections conducted per site. (Child Nutrition and WIC Reauthorization Act 2004, Section 15. 9(H), Implementation Memo SP-24).
- vi. Schools shall implement healthy school food preparation techniques using training materials developed through sources such as USDA, National Food Service Management Institute or Mississippi Department of Education. Training documentation and assessment records shall be retained for review by Mississippi Department of Education.
- vii. Schools should limit fried foods whenever possible and practical. Schools shall develop a long range plan for reducing and/or eliminating fried products in their lunch and breakfast menus. The long range plan should include preparation methods using existing equipment and/or goals to replace fryers with combi-oven/steamers as budgets allow. The long range plan (3 years) must be submitted to the Office of Child Nutrition by July 2010 and maintained on file in the school district. The long range plan must include preparations using existing equipment, and/or replace existing fryers with combi- oven/steamers.
- viii. Marketing of healthy food choices to students and staff
 - i. Train School Foodservice Administrators, Kitchen Managers, and Cooks in Marketing, New Cooking Techniques, and Garnishing using available or newly

developed training tools, such as Marketing Sense – Mississippi Department of Education, Office of Child Nutrition

- ii. Use the Whole School Approach in Marketing the Local Wellness Policy. Administration, faculty, staff, students, and parents need to be solicited to be a part of the implementation of the Local Wellness Policy. Educating the family and the community is crucial to the success of our efforts.
 - a) Suggestions include:
 - 1) Establishing Community Partnerships. With these groups on-board with the program, they can provide physical and financial support.
 - A. Junior League
 - B. Service Organizations (Rotary, Kiwanis, etc.)
 - C. Local Community Foundations
 - 2) Marketing New Foods. Research shows that it takes a number of times for an item to be served before it can be accepted. To facilitate the introduction of a new item, we suggest:
 - A. Tasting Parties
 - B. Serving Line Sampling
 - C. Serving Line Promotion
- ix. Food preparation ingredients and products
 - i. School districts shall adopt the Dietary Guideline recommendation that trans-fatty acids will be kept “as low as possible”.
 - ii. Wherever possible and practical, school lunch and breakfast programs shall include products that are labeled “0” grams trans fat.
 - iii. Schools shall incorporate whole grain products into daily and weekly lunch and breakfast menus based on product availability and student acceptability. School Food Authorities are encouraged to increase the amount and variety of whole grain products and at a minimum must serve at least 1 serving of whole grain products. At a minimum, one grain/bread component must be whole grain at least three days per week at lunch. The same item may not be served each day.
 - j. Minimum and maximum time allotment for students and staff lunch and breakfast periods
 - i. Schools shall schedule at least a minimum of 24 minutes to ensure an adequate eating time for school lunch. The factors influencing the lunch period are wait time, consumption time, standard deviation/variability and social time.

- ii. Since school breakfast is not factored into the regular school day, schools should take into consideration the recommended time of 10 minutes for a child to eat school breakfast after they have received the meal.
- k. The availability of food items during the lunch and breakfast periods of the Child Nutrition Breakfast and Lunch Programs.
 - i. School districts shall comply with the Mississippi Board of Education Policy on Competitive Food Sales as outlined in the Mississippi Board of Education Policies.
 - ii. School districts shall update the wellness policy to address limiting the number of extra sale items that may be purchased with a reimbursable meal. This policy will exclude extra beverage purchases of milk, juice and/or water. Schools may want to consider the following options:
 - a. Example:
 - 1. Elementary School – 1 extra sale item other than beverage
 - 2. Middle School – 1 extra sale item other than beverage
 - 3. High School – 2 extra sale items other than beverage
 - iii. Schools may sell extra items in individual packages not to exceed 200 calories. Example: ice cream, baked chips (grain), 100% juice bars, 100% fruit juice, or granola bars, or cereal bars.
 - iv. Schools may sell extra items in portions not to exceed the menu portion serving size. Example: ½ cup of fruit, ½ cup of vegetable, 2oz. wheat roll or entrees with 2-3 oz. protein.
 - v. Schools will use marketing, pricing and nutrition education strategies to encourage healthy extra sale selections.
 - a. Example:
 - 1. Healthy selections such as fruit or vegetables priced lower than other selections
 - 2. Healthy selections positioned in a visibly prominent location
 - 3. Fun nutrition information marketing the healthy selections
- l. Methods to increase participation in the Child Nutrition School Breakfast and Lunch Programs
 - i. Since school food service operates like a business with income and expenses, adequate marketing ensures a successful program operation. Child nutrition programs are usually highlighted once or twice a year during National School Lunch and Breakfast Weeks. For marketing to be effective, it should occur more frequently. When devising a plan, remember the following:
 - ii. Define your business.

- iii. Define your customers.
 - iv. Evaluate your plan and budget.
 - v. Define your objectives.
- m. Family education will be the key to building a healthy future for all Mississippians. Mississippi public schools offer the best resources, facilities and structure to promote family nutrition education.
 - n. Schools are strongly encouraged to develop academic partnerships with appropriate governmental agencies to offer family nutrition education programs. Family education should be incorporated into each school's Wellness Policy.
 - o. Schools will promote healthful eating and healthy lifestyles to students, parents, teachers, administrators and the community at school events.
 - p. Methods to award incentives to schools who have achieved USDA recognition through USDA's Healthier US School Challenge Program.
3. House Bill 1078, of the 2010 Regular Session of the Mississippi Legislature, added a new section 37-11-8 to the Mississippi Code of 1972 requiring the Department of Education to provide financial incentives to schools recognized by the United States Department of Agriculture (USDA) through the Healthier US School Challenge Program. House Bill 1078 provided financial incentives up to \$200,000 per year allocated to schools receiving awards of: Bronze - \$2,000, Silver - \$4,000, Gold - \$6,000 and Gold with Distinction - \$8,000. The following procedures will be used to allocate the financial incentives provided under House Bill 1078.
- i. House Bill 1078 restricts eligibility to Public Schools.
 - ii. State funding is limited to \$200,000 per year.
 - iii. Schools recognized by USDA as achieving a Healthier US School Challenge level prior to March 1st will receive their allocation by June 30th of the same year.
 - iv. Schools recognized by USDA as achieving a Healthier US School Challenge level between March 1 and June 30 will receive their allocation in the next Budget Year.
 - v. Funding of the financial incentives, established by House Bill 1078, will consist of both federal and state funds. Federal funds awarded to schools receiving an award level will be counted first towards the total dollar allocations established by House Bill 1078. State funds will be used to make up the additional incentive amount to equal the set award, up to the annual allocation of \$200,000 per year.
 - vi. Funding of award levels will follow the USDA Healthier US School Challenge Program and is based on award criteria effective January 1, 2009. Schools receiving their award level after January 1, 2009 will be eligible to receive the financial incentive.
 - vii. Funding Table:

Award Level	Federal Funds	State Funds	Total Award
Bronze	\$ 500	\$1,500	\$2,000
Silver	\$1,000	\$3,000	\$4,000
Gold	\$1,500	\$4,500	\$6,000
Gold Distinction	\$2,000	\$6,000	\$8,000

- viii. USDA Healthier US School Challenge award levels are currently recognized for a period of four years. If a school improves its award level during the four year period of another award level, the school will receive funding for the new award level. Example: If a school is recognized for a Bronze level and two years later applies and is recognized at the Silver level they would receive financial incentives for Silver Level.

4. In Summary:

School Nutrition Programs must play a central role in modeling good nutrition. These regulations offer schools a standard for improving the nutritional quality of school meals. These recommendations go above and beyond the established standards for the USDA National School Lunch Program. Healthy eating patterns and adequate nutrients are important for school-aged children to promote cognitive development, prevent health problems and reduce under-nutrition which has been linked to increase behavioral and emotional functioning.

Rule 38.13 Restraint and Seclusion

1. Introduction

The Mississippi Department of Education and the State Board of Education supports a positive approach to behavior that uses proactive strategies to create a safe school climate that promotes dignity, creates authentic student engagement, and improves student achievement for all students. When teachers and administrators implement evidence-based positive behavior supports with fidelity, a safe and orderly school environment is created that is conducive to learning and students are able to achieve without the constant interruptions that occur when teachers are required to address discipline in the classroom.

However, at times, some students exhibit behaviors which place themselves and others in imminent danger. Schools must implement proactive strategies and interventions to reduce the likelihood of these situations, and they must have clearly identified responses to address such situations when they occur. Additionally, schools should have policies in place that address the responses needed to ensure the safety of all students and staff.

2. Restraint and Seclusion Policy

A Restraint and Seclusion Policy is defined through written policies and procedures that define appropriate means of restraint and seclusion to provide for a safe and orderly education. These policies and procedures should apply to all students in the local school district and must not focus on one or more subgroups of students.

In accordance with Miss. Code Ann. §§ 37-9-69 and 37-11-57, it is recognized that staff may intercede in situations wherein students are displaying physically violent behavior or is deemed to be a danger to themselves or others. State Board policy positively prohibits the use of excessive force, or cruel and unusual punishment regarding student management. Under no circumstances shall restraint or seclusion be utilized as a punitive measure.

This policy in no way shall inhibit the right of staff to reasonable self-defense in accordance with the provisions of the 5th and 14th amendments to the Constitution of the United States nor negate the obligation of the district to provide a safe work environment.

3. Definitions

- a. Physical Restraint is defined as “the use of physical force, without the use of any device or material that restricts the free movement of all or a portion of a student’s body.” Physical restraint does not include briefly holding a student’s hand or arm to calm them or escort them to another area. A physical restraint shall be removed as soon as the student is calm.

- b. Physical escort is the temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out and able to respond to such physical prompt, to move to a safe location.
- c. Mechanical restraint is defined as “any device that attaches to a student’s body that restricts movement and cannot be removed by the student.” Examples include: straps, tie downs, boards, and harnesses. Handcuffs are also considered mechanical restraints, but may be used by certified school resource officers, as defined in Miss. Code Ann. §§ 37-7-321 and 37-7-323. Except for certified school resource officers, the use of mechanical restraints is prohibited in Mississippi Public Schools.
Devices not considered mechanical restraints include: adaptive equipment, protective devices, or assistive technology devices documented in a student’s individualized education plan (IEP), Section 504 plan, behavior intervention plan, or otherwise prescribed for the student by a medical or related service provider, seatbelts, and other safety equipment when used to secure students during transportation.
- d. Chemical restraint is defined as “the administration of medication for the purpose of restraint.” Chemical restraint does not apply to medication prescribed by and administered in accordance with the directions of a licensed physician. The use of chemical restraint is prohibited in Mississippi Public Schools.
- e. Seclusion is defined as “the confinement of a student in an enclosure from which the student’s egress is restricted.” Seclusion does not include situations in which a staff member trained in the use of de-escalation techniques is physically present in the same unlocked room as the student, in-school suspension, detention, or alternative school.
- f. Individualized Education Plan (IEP) means a written statement for a child with a disability that is developed, reviewed, and revised in accordance with State Board Policy 7219 §§ 300.320-300.324.
- g. Section 504 Plan is defined as an individualized plan of accommodations and modifications to provide a free appropriate public education to a student who has a disability that substantially limits a major life activity. A 504 plan spells out the modifications and accommodations that will be needed for a student to have the opportunity to perform at the same level as their peers.
- h. Behavior Intervention Plan (BIP) is a plan of action for managing a student’s behavior. The BIP includes a set of strategies and supports intended to increase the occurrence of behaviors that school personnel encourage and to decrease behaviors that school personnel want to lessen or eliminate.

4. General Procedures

- a. Physical restraint is considered to be an emergency response after all other verbal de-escalation measures have failed in effectiveness based on the following criteria:

- i. The student or other person is engaged in actions that would constitute a danger to themselves or others;
 - ii. The student or other person is engaged in actions that would constitute potential or actual destruction of property;
 - iii. To remove a non-compliant student or person from the scene of an incident;
 - iv. The restraint should be removed as soon as the student is no longer a danger to themselves or others.
- b. When using physical restraint for students who are a danger to themselves or others, staff should take precautions necessary to ensure the safety of the student and the staff members engaged in restraining the student. Physical restraints that restrict the flow of air are prohibited in all situations. When deemed it is necessary to restrain a student who is a danger to themselves or others, the following procedures should be used:
- i. Restraint should be conducted by staff who are trained in the restraint procedures adopted by the school district;
 - ii. Staff should carefully observe the student throughout the restraint to observe the student's physical and emotional status;
 - iii. Restraint shall be immediately terminated if the student appears to be, or claims to be, in severe stress;
 - iv. The restraint should be removed as soon as the student is no longer a danger to himself/herself or others;
 - v. As soon as possible after the restraint is removed, the staff should discuss the incident leading up to the restraint and discuss alternative behaviors that could have been utilized;
 - vi. When the student is able, he/she should be returned to the instructional activity, or to a less restrictive environment;
 - vii. Parents must be notified within one school day of the incident.
- c. School districts that permit restraint and seclusion must ensure that staff members are trained in the use of restraint. This training should be provided as a part of a program which addresses a full continuum of positive behavioral intervention strategies, crisis intervention, and de-escalation techniques.

Absent a clear and present danger to health or safety, physical restraint may only be practiced by staff trained in the physical restraint approach adopted by the local school district. The Mississippi Department of Education does not endorse a particular training

program. The local school district shall select programs that are founded on evidence based techniques that focus on:

- i. Certification for school personnel and recertification as required by the training program;
- ii. Preventing the need for restraint;
- iii. Training in first aid;
- iv. Identification of antecedent behaviors;
- v. Use of positive behavior supports, de-escalation, and conflict management;
- vi. Keeping staff and students safe during required restraints.

Local school district administrators should monitor the use of physical restraint to ensure fidelity of implementation. Additional and follow-up training should be provided on an ongoing basis and any situations in which procedures are not followed should be immediately addressed.

- d. Behavioral intervention must be consistent with the child's right to be treated as an individual. Schools should implement an evidence-based system of positive behavioral intervention and support. Elements of the system of support should include universal screening to identify potential students, teaching school-wide expected behaviors and social skills, and a system to monitor the effectiveness of the interventions and supports.
- e. Behavioral strategies, in conjunction with the school-wide system of behavioral interventions should be used to help identify the causes of dangerous behavior and could reduce the need for restraint or seclusion. Information on a student through interviews, observation, and records help identify the causes of the dangerous behavior and should guide the development of a behavioral plan for the student. A complete plan should include:
 - i. Addressing the characteristics of the setting and the event;
 - ii. If possible, removing the antecedents that triggered the event;
 - iii. Adding antecedents that promote appropriate behavior;
 - iv. Teaching appropriate behaviors to replace the dangerous behaviors.
- f. The use of seclusion occurs in a specially designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. Seclusion shall cease once the student regains control of his or her behavior.

Only school personnel trained on the use of restraint and seclusion should be used to observe and monitor these students. Staff engaged in monitoring students should have knowledge of effective restraint and seclusion procedures, emergency procedures, and knowledge as to how to effectively debrief students after the use of restraint or seclusion.

- g. The room used for seclusion must not contain any objects or fixtures with which a student could be harmed. Additionally, the room must provide adequate lighting and ventilation.
- h. The room used for seclusion may not be locked and staff must be present to monitor the student's safety and to know when the student has regained control of their behavior.
- i. School personnel may use seclusion to address a student's behavior:
 - i. If the student's behavior unreasonably interferes with the student's learning or the learning of others;
 - ii. If the student's behavior constitutes an emergency and seclusion is necessary to protect a student or other person from imminent, serious physical harm after other less intrusive, nonphysical interventions have failed or been determined inappropriate;
 - iii. After less restrictive or alternative approaches have failed or have been determined to be inappropriate.
- j. Each time a student is placed in restraint or seclusion, the incident must be documented in the student's educational record. The documentation must be available to the parent or guardian, and the parent or guardian must be notified verbally or in writing by the next school day, unless the student's behavior plan, IEP, or Section 504 Plan requires some other arrangement. This documentation should be provided using an incident report that is completed for each student in each instance in which the student is restrained or placed in seclusion. This report must include the following:
 - i. Date;
 - ii. Student's name, age and grade level;
 - iii. Ethnicity, sex, and non-disabled/disabled status;
 - iv. Location of restraint;
 - v. Precipitating behavior/antecedent;
 - vi. De-escalation efforts tried;
 - vii. Type of restraint used;

- viii. The student's behavior and physical status during the restraint/seclusion;
- ix. Total time spent in restraint or seclusion. The student shall not be kept in seclusion for more than 20 minutes. If additional time is needed, school personnel must reassess the student and document why the extra time is needed, or after this time, if the physical behavior is still manifested, the student should be assessed for transport to a medical facility for evaluation by a physician and the parent notified;
- x. Injuries to student or staff;
- xi. Staff participating in the restraint/seclusion;
- xii. Staff signatures;
- xiii. Name of school employee that the parent can contact; and
- xiv. Date and time parent was contacted.

After an incident of restraint or seclusion, all school personnel involved in the incident and appropriate administrative staff shall participate in a debriefing session for the purpose of planning to prevent or at least reduce the reoccurrence of the event. The debriefing session shall occur no later than five school days following the imposition of physical restraint or seclusion.

- k. If restraint or seclusion is used for a student who is not identified as a student with a disability, the student shall immediately be referred to the school's intervention team. The team shall determine if the student shows a pattern of behavior that would indicate the need for an intervention plan.
- l. If restraint or seclusion is used for a student with a disability, and the student's IEP, Section 504 Plan, or behavior intervention plan does not include the use of restraint or seclusion, the IEP or 504 team shall meet, within 10 school days of the incident to consider:
 - i. The need for a functional behavioral assessment;
 - ii. Developing appropriate behavioral interventions;
 - iii. Implementing a behavioral intervention plan.

5. Administrative Procedures

- a. Local school districts that utilize physical restraint and seclusion for all students must develop written policies and procedures that govern its use. The written policies and procedures must be designed to ensure the safety of all students, school personnel, and visitors and include the following provisions:
 - i. Staff and faculty training on the use of physical restraint;

- ii. Parental notification when physical restraint is used to restrain their student not to exceed one school day from the use of the restraint;
 - iii. Documentation of the use of physical restraint or seclusion by staff or faculty participating in or supervising the restraint or seclusion event;
 - iv. Procedures for the periodic review of the use of restraint and seclusion policies;
 - v. Procedures by which a parent may submit a complaint regarding the physical restraint or seclusion of their child;
 - vi. Procedures for reporting the use of restraint or seclusion to the local board of education.
- b. The policies and procedures should be reviewed with all staff on an annual basis.
 - c. Teachers and other district personnel should be trained on how to collect and analyze student data to determine the effectiveness of these procedures in increasing appropriate behavior.
 - d. All parents should receive, at least annually, written information about the policies and procedures for restraint and seclusion issued by the local school district or school. The written policies are to be included in each local education agencies code of conduct, student handbook, or other appropriate school publication.
 - e. A review of the use of a restraint and seclusion process must be conducted to determine if a revision of behavioral strategies in place to address dangerous behavior or if positive behavioral strategies are not in place when:
 - i. There is repeated use for an individual student;
 - ii. Multiple uses within the same classroom;
 - iii. Used multiple times by the same individual
 - f. School districts should not only establish and disseminate policies and procedures on the use of seclusion and restraint, but also should periodically review and update them as appropriate. The school district or school should maintain records of its review of seclusion and restraint data and any resulting decisions or actions regarding the use of seclusion and restraint.
 - g. In any situation in which a student is a danger to themselves or others, and it becomes necessary to contact law enforcement or emergency medical personnel, nothing in this policy guidance should be construed to interfere with the duties of law enforcement or emergency medical personnel.

Part 3 Chapter 41: Intervention

Rule 41.1 Intervention

1. The purpose of this policy is to ensure that the behavioral and academic needs of every student are met through an instructional model that is designed to address student learning with quality classroom instruction and opportunities for intervention. The Mississippi Department Education (MDE) shall require every school district to follow the instructional model, which consists of three (3) tiers of instruction:
 - a. Tier 1: Quality classroom instruction based on Mississippi Curriculum Frameworks
 - b. Tier 2: Focused supplemental instruction
 - c. Tier 3: Intensive interventions specifically designed to meet the individual needs of students
2. If strategies at Tier 1 and Tier 2 are unsuccessful, students must be referred to the Teacher Support Team (TST). The TST is the problem-solving unit responsible for interventions developed at Tier 3. Each school must have a Teacher Support Team (TST) implemented in accordance with the process developed by the MDE. The chairperson of the TST shall be the school principal as the school's instructional leader or the principal's designee. The designee may not be an individual whose primary responsibility is special education. Interventions will be:
 - a. designed to address the deficit areas;
 - b. research based;

- c. implemented as designed by the TST;
 - d. supported by data regarding the effectiveness of interventions.
3. Teachers should use progress monitoring information to:
- a. determine if students are making adequate progress,
 - b. identify students as soon as they begin to fall behind, and
 - c. modify instruction early enough to ensure each student gains essential skills.
- Monitoring of student progress is an ongoing process that may be measured through informal classroom assessment, benchmark assessment instruments and large-scale assessments.
4. After a referral is made, the TST must develop and begin implementation of an intervention(s) within two weeks. No later than eight weeks after implementation of the intervention(s) the TST must conduct a documented review of the interventions to determine success of the intervention(s). No later than 16 weeks after implementation of the intervention(s), a second review must be conducted to determine whether the intervention(s) is successful. If the intervention(s) is determined to be unsuccessful, then the student will be referred for a comprehensive assessment.

1. The State Department of Education shall divide the school district's months two and three average daily attendance (ADA) by the school district's months two and three average daily enrollment (ADM) for grades kindergarten through 12th grade (exclusive of self-contained special education grades) for the current school year to determine the percentage of attendance to enrollment for the current school year.
2. The State Department of Education shall determine the school district's five- year average of the percentage of months two and three average daily attendance to the school district's months two and three average daily enrollment (ADM) for the same grades defined in step 1 above using the last five years of attendance and enrollment data as reported through the Mississippi Student Information System (MSIS). Current year's enrollment and attendance data are excluded from the five-year average calculation.

1. The Office of Management Information Systems (MIS) is to ensure appropriate authorized access of IT resources and services, equipment and usage for the security and protection of information as assigned by State of Mississippi. These resources are provided to conduct and support state business and educational functions as required by law. MIS provides security and controls to enhance efforts in providing confidentiality, integrity and availability to the departments within MDE as with student and personnel information in schools, public and nonpublic school districts governed by the State Board of Education. All information technology assets that are managed, operated, maintained, or in the custody or proprietorship of the agency and/or hosted by third parties on behalf of MDE must be utilized to ensure:
 - a. Appropriate Use
 - b. Availability
 - c. Accountability
 - d. Data Integrity
 - e. Privacy and Confidentiality

Employees and authorized users are required to adhere to the “Appropriate and Acceptable Use Policy” that is published in the MDE Human Resource Employee Policy and Procedures Manual and on the MIS website. Users must read and acknowledge the policy as a condition of being granted access to Management Information System’s technology assets during their tenure as an employee or authorized user. Users will be held responsible for protection of all technology resources and information for which they are entrusted and using them for their intended purposes.

The Management Information System’s Information Technology Security Policy has been created as a directive of MS Information Technology Services as it applies in MS Code 25-

Part 3 Chapter 64: Qualified Zone Academy Bonds

Rule 64.1 Qualified Zone Academy Bonds

1. Background

Created by The Taxpayer Relief Act of 1997, QZABs are an interest free financial instruments that provide a different form of subsidy from traditional tax-exempt bonds. The difference is that the QZAB bondholder (these include banks, insurance companies and corporations actively involved in the business of lending money as well as any individual or private business) receives a federal income tax credit in an amount equal to a percentage of the face amount of the bond. The local school board will be responsible for the issuance of QZAB debt under existing statutory authority and the repayment of the QZAB principal upon maturity. The credit (interest) rate and maximum maturity (about 14 years under current market conditions) are determined by statutory formulas.

QZABs are to be issued in support of a Qualified Zone Academy. A Qualified Zone Academy is defined to include a public school (not a school district) or academic program within a school that enters into a partnership with one or more local businesses to enhance the academic curriculum, increase graduation and employment rates, and better prepare students for the rigors of college and the workforce under a plan approved by the local school board. Eligible schools must be located in an empowerment zone or an enterprise community or expect to have at least 35 percent or more of their students eligible for free or reduced lunch under the National School Lunch Act. Students in a Qualified Zone Academy must be subject to the same academic standards and assessments as other students educated by the local school system. A Comprehensive Education Plan must be developed by the partnership and must be approved by the board of education of the local school district.

The Department of Education has the responsibility of allocating portions (or all) of the amount of QZAB authority allocated to the State to one or more Qualified Zone Academies. Amounts allocated to the State for a year that are not allocated to Qualified Zone Academies during that year will be carried over and allocated in any subsequent year. The Davis-Bacon Act applies to projects funded with QZABs.

2. Allocation of QZAB to PUBLIC School Districts

The total amount of QZABs allocated to Mississippi will be available to public school districts that meet established criteria on first-come-first-served basis. The Department will make that determination based on the date and time the QZAB Application is received from the school district. The amount of QZABs available to public schools will be based on the availability of funds at the time of request.

3. QZAB Application

The local school district must complete an application in its entirety and submit to MDE as required.

It is the responsibility of the board of education of the local school district to determine whether the purposes for which the QZAB is issued conform to applicable State and Federal Law.

- b. The Department shall respond in writing within fourteen (14) working days from the date of the request. Denials shall contain the specific reasons for the denial. Copies of all denials shall be maintained on file by the Department for not less than three years from the date denial is made.
- c. Access to nonexempt records will be allowed during regular business hours.
- d. If any public record which is held to be exempt from disclosure contains material which is not exempt, the Department shall separate the exempt material and make the nonexempt material available for examination and/or copying.
- e. When fees are appropriate as specified in Section II of this regulation, the fees must be paid prior to the Department's compliance with the request. Cash, money orders, cashier's checks, personal or company checks will be accepted in payment for fees under Section II. Payment by personal or company check will be accepted subject to clearance within fourteen working (14) days.
- f. Records furnished to the Department by third parties, which are not public bodies as defined in the Public Records Act, will not be released until notice to the third parties has been given. The records shall be released in fourteen days unless the third party obtains a court order protecting the records as confidential.
- g. The State Superintendent of Education or his designee has the authority to specify the mode, manner, time and place of access.

Part 3 Chapter 74: Special Education

Rule 74.1 Educable Child Program

1. Educable Child

The Mississippi Department of Education (MDE), Office of Special Education (OSE) is directed to provide oversight through the Individuals with Disabilities Education Act (IDEA) and State Statute in the placement and funding of students with disabilities in private school/facilities. It is the policy of the MDE to ensure that Local Education Agencies (LEAs) meet the private school requirements in Mississippi Code Annotated, Sections 37-23-61 through 37-23-75 and IDEA 34 CFR §§300.130 through 300.148.

a. State Statute

The MDE shall have the authority to promulgate and enforce reasonable rules and regulations establishing standards for administration of the program contemplated by Mississippi Code Annotated, Sections 37-23-61 through 37-23-75, consistent with the maintenance of high quality programs for the benefit of the exceptional children served. The MDE shall require that the programs for which children are eligible for financial

assistance under Mississippi Code Annotated, Sections 37-23-61 through 37-23-75 be designed to provide individualized appropriate special education and related services that enable a child to reach his or her appropriate and uniquely designed goals for success. State funds will not be used for the payment of medical services or for room and board charges.

b. Individuals with Disabilities Education Act (IDEA)

The MDE has adopted State Policies Regarding Children with Disabilities under IDEA Amendments of 2004. A Free Appropriate Public Education (FAPE), as outlined in IDEA 34 CFR §300.101, ensures that each student ruled eligible by a public agency is protected under IDEA. Each eligible student under IDEA shall have available a FAPE that uniquely emphasizes their special education and related service's needs.

The MDE shall require that each private facility/school adhere to the IDEA mandated requirements, which include the provision that IDEA funds may only be used for the excess cost to educate students with disabilities placed by a school district or DHS in a private facility/school. IDEA funds may not be used for the payment of medical services or for room and board charges. 34 CFR §300.704

2. Private Schools/Facilities

A private facility must gain approval from the MDE, OSE to provide appropriate special education and related services under the Educable Child Program. The school within the private facility must obtain an approval status from the MDE, OSE, and must be operated as an integral part of the facility, which provides twenty-four (24) hours a day monitoring, treatment, and education. The private facility must also hold a current license from the Department of Health designating approval as an Intermediate Care Facilities for Intellectual Disabilities (ICF-ID) or Psychiatric Residential Treatment Facilities (PRTF) facility.

- a. All private schools/facilities, parochial schools/facilities, speech, hearing and/or language clinics (hereinafter referred to as private facilities) that participate in the Educable Child Program will be accredited by a state or regional accrediting agency or approved/licensed by the MDE to meet educational standards in the state.
- b. All Private ICF-ID or PRTF (hereinafter referred to as private facilities) shall be certified/licensed by the designated state authority for such facilities.
- c. Out-of-state private facilities must hold an approval status from their state educational agency or a current accreditation status from a nationally recognized educational accrediting entity such as the AdvanceEd.

3. Fiscal

a. Appropriations

State appropriated funds will be used to pay the educational cost as defined by the State Legislature and as State Funds are available for the required placement per child per school year if an approved private school operates as an integral part of the facility, which provides twenty-four (24) hours a day monitoring, treatment, and education utilizing the prescribed formula. Federal funds will be added to the appropriated State funds as available and/or needed to fund school district and DHS applicants. If state monies are not

sufficient to fund school district and DHS applicants, there will be ratable reduction for all applicants (including parentally placed applicants) receiving state funds under the Educable Child Program.

b. Formula

Will be defined annually by MDE utilizing an approved formula methodology.

c. Transportation

If transportation costs (i.e. defined as travel to and from school) are incurred by a private facility for an Educable Child Applicant placed by a public school district and placed by the DHS, the transportation rate will be determined annually by the MDE, OSE.

d. Payments

Payments will be scheduled and published annually by MDE.

4. Applications

a. School District Placed Students

The school district will pay an amount to be established annually in the OSE Ed Child Procedures for any Educable Child Application made by the district. The remainder of the total amount will be paid by the Educable Child Program, providing funds are available from State or federal sources (as allowed by IDEA) and the State Level Review Board has approved the Educable Child Applicant for financial assistance. The State Level Review Board's Decision does not change the Individual Educational Program (IEP) placement decision or continuum of services; rather it determines the Educable Child Program's financial involvement regarding the placement.

b. Department of Human Services (DHS) Placed Students

The Educable Child Program will pay the educational costs of an Educable Child Applicant placed by and in the custody of the DHS provided funds are available from State or federal sources (as allowed by IDEA) and the State Level Review Board has approved the placement for financial assistance. The State Level Review Board's Decision does not change the IEP placement decision or continuum of services; rather it determines the Educable Child Program's financial involvement regarding the placement.

c. Parentally Placed Students

Parentally-placed private school children with disabilities means children with disabilities enrolled by their parents in private, including religious, schools or facilities that meet the definition of elementary school or secondary school. State Educable Child Funds may be used only. IDEA funds are not allowed as parentally placed students are not covered under IDEA. 34 CFR §300.130

- i. With Medicaid Available Funding: The Educable Child Program will provide financial assistance for the educational costs to an Educable Child Applicant placed in an approved private facility when the student is determined to be eligible for Medicaid services. Funding will be based on the entitlement authorized by the State Legislature, through the annual appropriations bill, providing funds are

available from State sources and the State Level Review Board has approved the Educable Child Applicant for financial assistance.

- ii. Without Medicaid Available Funding: The Educable Child Program will provide funds as outlined in Mississippi Code Annotated, Section 37-23-69(a) for the educational costs for an Educable Child Applicant who is placed in an approved private school and the State Level Review Board has approved the Educable Child Applicant for financial assistance.

5. Hearing Procedures

In the event of disapproval by the State Level Review Board of an application for financial assistance under the Educable Child Program, the MDE will give notice to the Educable Child Applicant and notify the applicant of the right to request a hearing.

Rule 74.2 Teacher Unit Approval (Repealed 9/2011)

Rule 74.3 Teacher Unit Allocation. Teacher Unit Allocation Methodology to Support Programs for Students with Disabilities

1. The Teacher Unit Allocation Methodology gives consideration to two factors:
 - a. Educational Placement
 - b. Levels of Support

Each student will be assigned a weighted value based on these two factors. After calculation of the total number of weighted students, teacher units are determined by the following formula:

- a. Pre-K: 18 weighted units = 1 teacher
- b. K-2: 22 weighted units = 1 teacher
- c. Gr. 3-12: 27 weighted units = 1 teacher

2. Educational Placement

The first factor in determining the teacher unit allocation is the educational placement of students with disabilities. These placements represent options along the least restrictive environment continuum.

- a. Regular Education/Early Childhood Setting
 - i. Ages 3-5: Early childhood setting designed primarily for children without disabilities
 - ii. Ages 6-20: General/regular education classes for more than 80% of the school day.
(Removed from general education for no more than 20% of the school day)
- b. Resourced

- i. Ages 3-5: Special education setting part time; remainder of time at home or in early childhood setting designed for non-disabled children
 - ii. Ages 6-20: General/regular education placement between 40-80% of the school day (Removed from regular education for 20-60% of the school day)
- c. Self-Contained
- i. Ages 3-5: Program designed primarily for students with disabilities
 - ii. Ages 6-20: General education class less than 40% of the school day (removed from regular education for more than 60% of the day)

3. Levels of Support

The second factor of the proposed methodology is the intensity of specially designed instruction received by the student from an appropriately licensed special education teacher and related services received from an appropriately licensed related service provider (except for transportation services). It is proposed that the following levels of support be reflected in the teacher unit allocation methodology:

- a. Minimal Support: The student receives specially designed instruction/supports for at least one period per week or less than 5 hours per week.
- b. Targeted Support: The student receives specially designed instruction/supports for at least one period per day or 5 to 12.5 hours per week.
- c. Sustained Support: The student receives specially designed instruction/supports for at least half of the school day or more than 12.5 to 24 hours per week.
- d. Intensive Support: The student receives specially designed instruction/supports for the full school day or all but one period per day, or more than 24 to 30 hours per week or more.
- e. Other Instructional Support

Adaptive Physical Educators are specifically trained to make adaptations, modifications, and accommodations in order to provide a safe, successful physical education experience for students with disabilities. The ratio for Adaptive Physical Educators is 48:1 with a minimum of 25. The maximum class size is 48 students.

Speech/Language Pathologists are responsible for organizing and implementing the assessment and services for communication and related disorders through various service delivery models. The ratio for Speech/Language Pathologists is 48:1 with a minimum of 25. The maximum class size is 48 students.

<i>Educational Placement</i>	<i>Levels of Support</i>			
	<i>Minimal</i> <5 hrs/wk	<i>Targeted</i> 5-12.5 hrs/wk	<i>Sustained</i> >12.5-24 hrs/wk	<i>Intensive</i> 24+ hrs/wk

Regular Education (removed less than 21% of the school day)	1.5	2.0	2.5	3.0
Resourced (removed 21-60% of the school day)		1.5	2.0	
Self-Contained (removed more than 60% of the school day)			2.0	3.0

Rule 74.4 Hearing Procedures, IDEA

1. In the event of funds being withheld in accordance with the regulations in the State Plan under Part B of the Individuals with Disabilities Education Act (IDEA) and state regulations regarding students with disabilities, the State Department of Education will give notice to the appropriate school official (district superintendent, agency head, or director of private school) by certified mail which shall include notification of the right to request a hearing.
2. Within five (5) calendar days after receipt of the notice, the applicant may apply in writing to the Mississippi Department of Education for a hearing before a hearing officer with knowledge of special education federal and state regulations. The hearing officer will be designated by the Mississippi State Board of Education pursuant to Mississippi Code Ann. Section 37-1-5.
3. The hearing officer shall notify the appropriate school official of the time, place, and date of the hearing. The date shall be not less than five (5) calendar days from the receipt of the request for a hearing.
4. It shall be the responsibility of each party to secure the attendance of its witnesses, if any, and any expenses attendant thereto shall be borne by the party calling that witness. Two copies of any written evidence will be submitted: one copy for the hearing officer and one for the opposing party. Evidence submitted by the school official will be labeled P-1, P-2, etc. Evidence submitted by the department will be labeled D-1, D-2, etc. Evidence may be stipulated and entered as S-1, S-2, etc.
5. The hearing officer shall require that all witnesses be sworn before offering testimony. The hearing officer shall not be bound by the Common Law or statutory rules of evidence or by formal or technical rules of procedure and may conduct reasonable questioning of any witnesses. The hearing officer may limit the examination or cross-examination of any witnesses to keep the hearing focused on the issue of withholding of funds and may recess/reconvene the hearing if necessary.

6. The Department of Education shall make a record of the proceedings to include all documents introduced into evidence which shall be available for cost upon the written request of the applicant.
7. Within fifteen (15) working days of the conclusion of the hearing, the hearing officer shall make a recommendation in the following format: (1) purpose of the hearing, (2) summary of evidence presented, and (3) conclusions and recommendations, a copy of which shall be sent to the parties by certified mail.
8. The completed record along with the hearing officer's recommendation shall be certified to the State Board of Education which shall at its next regularly scheduled meeting consider only the record and shall not consider any evidence or material not included within the record in reaching its final determination.
9. If the State Board of Education shall affirm the Department's actions of withholding of Part B and 89-313 funds, the State Board of Education shall make its written findings and issue its order and notice shall be given the school official by certified mail. The decision of the State Board of Education is final.

Rule 74.5 Hearing Officer Fees. Recommended rates per professional hour and non-professional hour shall be determined annually by the recommendations of the Mississippi Department of Education Leadership Team and shall be posted on the website of the Office of Special Education.

1. Time spent as specified below may be billed at the recommended professional hourly rate:
 - a. Conducting the pre-hearing conference call which includes the following tasks:
 - i. Sending the initial letter setting up the pre-hearing call (form letter.)
 - ii. Conducting the pre-hearing conference call.

 - ii. Conducting the hearing.
 - iii. Writing an opinion.
2. Time spent as specified below may be billed at the recommended non- professional hourly rate:

- a. Time spent performing clerical functions, including but not limited to, phone calls except as specified above, scheduling, preparing or sending documents, except as above, etc.
 - b. Time spent in travel from base to destination.
3. Usual and customary expenses include charges for the following:
- a. Long distance telephone
 - b. Audio recording
 - c. Faxing
 - d. Photocopying
 - e. Certified mail
 - f. Out of pocket costs (hotel, meals, mileage)
4. Costs Not Allowed
- a. Excessive time for research.
 - b. Time spent for billing purposes.
 - c. Transcribing phone calls or meetings.
 - d. Other expenses that is not documented and defined.

Miscellaneous time spent on the case should be included in the hourly rate for conducting the pre-hearing conference and for conducting the hearing.

5. Additional Considerations

Extra time required to educate oneself on an issue should not be passed on as extra cost to the district. Excessive time spent researching the issue will not be considered a necessary component of writing the opinion. If the hearing officer is not familiar with pertinent case law, he/she should request that counsel for both parties submit briefs following the hearing, since clients are already paying for the research to be conducted by their attorneys.

Rule 74.6 Transportation Management of Students with Disabilities. In the event a school district cannot meet the transportation needs of students with disabilities on a regular school bus route, the State Department of Education will provide funding to the district for transportation of students with disabilities within the district or to the nearest adequate facility outside the district

in order to provide appropriate educational services. Payment shall be based upon the following formula: $(1/2 \text{ of school district's annual per pupil transportation allotment} \times \text{number of students transported}) + (\text{round trip mileage transported} \times \text{total number of actual days transported} \times 20 \text{ cents per mile})$.

Payment for transporting children enrolled as resident students at the Mississippi School for the Blind or Mississippi School for the Deaf shall be based on the same formula defined above. School districts may reimburse parents, guardians, etc., for the round trip to the Mississippi School for the Blind or Mississippi School for the Deaf and back home at the beginning of the school year and at the close of the school year. Transportation may also be provided on the same basis any time during the school year when the dormitories at these institutions are closed. School districts providing transportation for eligible day students assigned to the Mississippi school for the Blind and Mississippi School for the Deaf shall be eligible for funding based on the formula defined above.

If a child enrolled in either the Mississippi School for the Blind or the Mississippi School for the Deaf resides in a school district where there is an appropriate program for that child or where there is an appropriate program within reasonable driving distance which the district will make available to the child, then the transportation cost will be the responsibility of the Mississippi School for the Blind or the Mississippi School for the Deaf (depending upon which school the child is enrolled).

In the event that a state-supported university or college provides a special education program for children from any school district that is unable to meet the educational needs of those children, then the university based program shall be eligible for funding based on the formula defined above. Any assessment of one-half the per-pupil allotment shall be based on the child's resident district.

The maximum distance a student with disabilities may be transported or the maximum length of time for a special education transportation route will depend upon the Individualized Educational Program (IEP) for the respective child. For the purpose of payment, a student with disabilities is defined as any child properly tested and found eligible for a special education program receiving appropriate educational services as stipulated in the Individualized Educational Program (IEP).

Funding for the transportation of students with disabilities will be determined using prior year transportation data submitted on forms provided by the Mississippi Department of Education and based on the formula defined above.

No private contracts or use of vehicles other than school buses shall be submitted to the State Board of Education for approval.

Drivers transporting students other than members of the driver's immediate families must be trained and properly certified.

Rule 74.7 State Application Preschool (Repealed 9/2011)

Rule 74.8 University Based Programs. The University-Based Program is authorized in Sections 37-23-31 through 37-23-35 of the Mississippi Code. Any state supported university or college may apply for minimum program funds under these regulations.

1. Procedures

- a. When there is an organized program in a local school district for students with a particular exceptionality, then the university-based program will not enroll a student with that exceptionality from that district in the university-based program except in the following two situations:

- i. the student is enrolled on a private tuition basis

OR

- ii. a) if the local district initiates a placement because an IEP committee in that district has determined that the organized program in that district is not appropriate for that student,

- b) that university-based program is an appropriate placement for that student, and

- c) the IEP committee places that student in the university-based program.

Yearly placement decisions relative to whether a handicapped student is to be placed in a university-based program by a local district continue to be the responsibility of that local district.

- b. No later than April 15 each year, the State Department of Education (SDE) staff will notify the university-based program staff relative to which local school districts in the area served by the university-based program have organized programs for the exceptionalities currently being served in that university-based program. If a parent requests a university-based program to serve an exceptional child from a local school district that has an organized program, the university-based program staff will notify the parent that they are prohibited by state law from duplicating the program available in the local school district and will inform the local district of that child's need for educational service.
- c. When the university-based program staff is requested by a parent to serve an exceptional child from a local school district that does not have an organized program for that exceptionality, the child may be enrolled in that university-based program following SDE guidelines that apply to other state agencies. In that case, the university-based program is totally responsible for the education of that child including development of the IEP. It is suggested that local school district special education staff be kept abreast of the progress of this child and it is permissible for university-based program staff to invite district staff to IEP meetings.

- d. In the event there is a question as to whether the local district has an organized program for a particular exceptionality, the university- based program staff may contact the SDE staff responsible for the university-based program for a decision.
- e. An organized program is a program approved by the SDE serving a particular age range and exceptionality or exceptionalities. When the local school district has such a program and a child in that age range and with that exceptionality is identified, an IEP committee in that district makes the decision as to whether that organized program is appropriate for that child. No other entity can make that decision.

2. Application Steps

- a. Identify a teacher for this class(es) certified in accord with State Department of Education regulations.
 - b. Identify a classroom facility in which to locate the class. It should be approximately the same size as a regular classroom in a public school district.
 - c. Submit a proposal to the Bureau of Special Services describing the program according to regulations.
3. Upon receipt of this proposal, Bureau of Special Services personnel will review it and either approve it or work with university/college personnel to get it in an approvable form. The Bureau Director will write a letter indicating approval of acceptable proposals and indicating that university/college personnel may proceed with implementation. In the event that teacher certification and number of eligible children is not available when the proposal is submitted, tentative approval will be given until such time as this information is received.

During the implementation of a program, following proposal approval, it will be necessary for the university/college to submit a Class Data Sheet. This submission will occur each year. Any time the program changes, the proposal must be amended.

4. The Outline for the proposal which is to be submitted to the Bureau of Special Services is as follows:
- a. Title of the Program
 - b. General Information
 - i. Number, age and exceptionality of students
 - ii. Length of School Day (must be full day program to receive full funding)
 - iii. Number of teachers requested, teacher's name (if available) and certification (if available)
 - iv. Location and description of the classroom(s)
 - c. A list of program objectives
 - d. An outline of program evaluation criteria
 - e. A copy of the university/college approved policies and procedures as required

- f. An assurance that the university/college will comply with all applicable State Department of Education regulations relating to programs for handicapped children (it is the responsibility of personnel who operate this program to be familiar with all regulations).

Rule 74.9 504 Program (Repealed 9/2011)

Rule 74.10 Special Grant Selection Criteria. If during the school year a special education class exceeds the maximum enrollment according to the regulations in the Referral to Placement Handbook, Part II, a request for an exemption will be submitted to the State Department of Education. The maximum class enrollment for each type of special education program is as follows:

Resource Program	18
Self-Contained Program	14
Home/Hospital Program	8
Language/Speech Program	60
Preschool (ages 3-5) Home-Based Program	16
Preschool Community-Based Program	16
Preschool Combination of Home-Based and Community-Based Program	16
Preschool School-Based, Full-Day Program	14
Preschool School-Based, Single Half-Day Program	14
Preschool School-Based, Two Half-Day Programs	24

1. The request will describe the situation and provide justification as to why the exemption should be approved to include at a minimum the following:
 - a. the number of special education teachers in that school who serve students with disabilities, the enrollment of each teacher; and why appropriate services cannot be provided by one of those teachers in that school,
 - b. a clear description of why an additional class cannot be added to take care of the overload,
 - c. whether there is a school reasonably close by to which the children over the maximum could be transferred, and
 - d. other emergency, hardship, or special situations which justify the exemption.
2. State Department of Education staff (Exemptions Committee) will review the request for exemption and make a recommendation to the State Board as to whether it should be granted.

3. The State Board will consider requests at its monthly meetings.
4. A school district may appeal the denial of an exemption by requesting to appear before the State Board at its next meeting.
5. The State Board's decision on an appeal is final.

Rule 74.11 Exemptions, Maximum Enrollment (Repealed 03-24-2014)

Rule 74.12 Extended School Year

1. GENERAL MISCONCEPTIONS

Careful study of the Crawford case, specifically including the Fifth Circuit's opinion, eliminates some misconceptions. An extended school year is:

- a. not a mandated 12 month school program for all students with disabilities,
- b. not required just because students with disabilities could benefit from it,
- c. not required in order that child care be available for students with disabilities during the summer,
- d. not required as a means of maximizing the educational opportunities for each student with a disability,
- e. not necessarily a continuation of the instructional program provided during the regular school year,
- f. not required to be provided all day, every day, nor each day during the week or month,
- g. not for more mildly students with disabilities (based on level of functioning), and
- h. not necessarily a traditional teacher/classroom/child operation. II.

2. DEFINITIONS

- a. Regular School Year - must be a minimum of 180 school days.
- b. Extended School Year - any individualized instructional program which is extended beyond the regular school year for students with disabilities who are enrolled in a school district's special education program.
- c. Mastery - the successful demonstration of an acquired skill, at the designated level of proficiency specified in the evaluation criteria defined for that skill, in the student's IEP.
- d. Regression - the loss, as a result of a scheduled break in instruction, of one or more mastered skills included in the short-term objectives of the student's IEP.
- e. Recoupment - following a scheduled break in instruction, the process of regaining a previously mastered skill through review and reteaching.
- f. Recoupment Time - the length of time required to regain previously mastered skills.

- g. Regression-Recoupment Syndrome - the name applied to the belief that, following a scheduled break in instruction, a student will have lost one or more mastered skills and that it will take varying lengths of time to relearn those skills.
- h. No Educational Benefit - regression because of summer vacation to such an extent that: (a) following review and reteaching, recoupment of one or more mastered skills does not occur during the first ten (10) weeks of instructions in the next school year or (b) the loss of one or more acquired critical skills addressed in the current IEP would be unusually substantial and severe.

NOTE: For a child who is not in regular attendance, during the first ten (10) weeks of instruction, sufficient time may be added to the recoupment period to make sure that the child has received ten (10) weeks of instruction.

3. POLICY

A review of the literature, as well as practical experience, indicates that both students with disabilities and students without disabilities regress during breaks in instruction. The amount of regression and the length of time required to recoup previously mastered skills varies widely among all students.

It is the policy of the State Department of Education that when necessary to insure a free appropriate public education (FAPE), each local school district shall offer an extended school year to those students with disabilities who's Regression-Recoupment Syndrome is so severe that it can be predicted that they will have gained no educational benefit from their previous year's educational program (as defined in the IEP) without an extended school year. The purpose of the extended program is to maintain each student's mastered skills so that the summer vacation periods will not render the previous year's educational program of no educational benefit.

4. PROCEDURE FOR SELECTION

a. General

The need for an extended school year must be considered on at least an annual basis at an IEP meeting. The IEP Committee must review available data relative to the student's mastered skills and educational history. Based on this review, the IEP Committee must predict whether the regression that will occur because of the lengthy break in instruction (summer vacation) will be to such a marked degree that recoupment of a previously mastered skill(s) will not occur during the first ten (10) weeks of instruction in the following school year or the loss of one or more acquired critical skills addressed in the current IEP would be unusually substantial and severe. It is possible that the extended school year may only include the maintenance of skills previously mastered as a result of a related service if loss of that skill will result in no educational benefit. Generally speaking, students with disabilities who require an extended school year will have severe problems in one or more of the following areas: (1) physical, emotional, communication, and self-help and (2) will need intensive instruction, including related services, across several of these areas. Conversely, when one considers how more mildly students with disabilities

function and what expectations are for them, it is likely that very few of them will require an extended program to derive educational benefit during the regular school year.

b. Suggested Data to be Reviewed at the IEP Meeting

The following list contains some of the information which may be helpful when preparing to make the decision about an extended school year:

- i. current and previous IEP,
- ii. checklists/curricula or other records showing when skills were mastered,
- iii. attendance information,
- iv. recommendations from professionals,
- v. behavioral logs,
- vi. video/audio tape information,
- vii. other assessment data.

c. Using the Data for Decision Making

After gathering available data, consider the following while making the decision as to whether an extended school year is to be provided for the child:

- i. Compare the mastery of IEP objectives prior to previous summer breaks with performance after summer breaks. If little or no regression was measured, then there is no indication of the need for extended programming.
- ii. If regression was noted and instruction was provided to reteach skills which were lost, note the time required for recoupment. If IEP objectives mastered the previous year were not recouped during the first time (10) weeks of instruction in the next school year or it is projected that the loss of one or more acquired critical skills addressed in the IEP would be unusually substantial and severe, the child is eligible to receive an extended school year.
- iii. Make sure that significant regression-recoupment in the past occurred because of extended breaks in instruction. Make sure that the regression was not caused by a lengthy absence or failure to review and reteach previously mastered skills. Significant regression-recoupment problems based on this information would not necessarily indicate the need for an extended school year.
- iv. Some skills which were mastered in the previous year's program may be of minimal importance to higher levels of functioning and may no longer be in need of emphasis. Predicted loss and lengthy recoupment of these skills would probably not indicate the need for an extended school year.
- v. When determining the content of the extended school program, only mastered skills will be considered for inclusion in the extended year program.

- vi. If a prediction of significant regression-recoupment problems cannot be made because the previous year's data is unavailable, an extended school year may be recommended if other data indicate the probability of significant regression-recoupment problems. In such cases, there should be recognized research which supports the decision. You may also consider what regression occurred during scheduled holidays and other times when the student was out of school for a week or more. This option should only be used for students who exhibit severe problems.
- vii. Determine whether performance within specific developmental areas, as identified on the IEP, is in an accelerated critical phase of acquisition so that the summer interruption in educational programming would cause significant problems in the mastery of that skill and subsequent skills.
- viii. If the IEP Committee determines that there is documentation that there is one or more critical skills addressed in the current IEP objectives and that loss of these acquired critical skills would be unusually severe or substantial, then ESY may be justified without consideration of the time period for recoupment of such skills.
- ix. A skill is critical when the loss of that skill is projected to result in any of the following unplanned occurrences during the first ten (10) weeks of the next regular school year:
 - a) Placement in a more restrictive instructional environment,
 - b) Significant loss of self-sufficiency in self-help areas as evidenced by an increase in the number of staff required to provide special education or related services, and/or
 - c) Loss of access to on-the-job training or productive employment.
- x. **DOCUMENTING THE DECISION**

On at least an annual basis at an IEP meeting, the decision regarding ESY services must be documented and maintained in the student's file. This decision is not irreversible. At any time that data maintained on the student indicates that the ESY decision was incorrect, IEP revision procedures must be followed to change the decision.

When it is determined that a student meets the criteria for an extended school year, the specific skill(s) to be maintained must be identified on the IEP. The IEP Committee must also address the amount of time per day, the number of days per week and the number of weeks that the instruction will be provided to maintain the skills. While students who require an extended school year generally need intensive instruction during the regular school year to show progress it is probable that mastered skills can be maintained across the summer with less instruction.

If a related service is required for educational benefit during the Extended School Year, skills to be maintained must be those listed within the IEP.

xi. POSSIBLE DELIVERY SYSTEMS

The IEP Committee must consider the unique needs of each student when deciding the type of educational programs required to maintain mastered skills. Some alternatives the district might consider are:

- a) the traditional classroom,
- b) an abbreviated school day or week,
- c) individual therapy (physical, occupational, counseling...),
- d) tutorial services,
- e) in-home training,
- f) continuation of private placement, or
- g) contractual agreements with other agencies. Educational programs must be provided by appropriately certified/licensed personnel.

Rule 74.13 Medicaid Placements (Repealed 03-24-2014)

Rule 74.14 Pooling State Funds. Designated state Educable Child Program funds from the Mississippi Department of Education (MDE) may be utilized to assist in providing a local or regional system of care in order to return a child with a serious emotionally disturbed disability to a community setting. Designated funds are the state moneys available to pay for the placement of a child who 1) has a disability and is diagnosed as seriously emotionally disturbed in accordance with regulations, and 2) has been placed in a private facility by a school district or the Department of Human Services (DHS), in accordance with regulations.

The designated state funds which would be used for a child's placement in a facility by a school district or DHS may be paid into a pool of funds from other state agencies. Such funds must be used for the implementation of a child's individualized plan of care. The individualized plan of care provided must be designed and provided in a manner which enables the child to successfully return to a community with the appropriate support for the child and family. The child's individualized plan of care must include the provision of a free appropriate public education in accordance with regulations. If there are sufficient funds to serve other children, due to cost savings as a result of serving more than one child at home and/or matching the pooled funds with federal dollars, the funds may be used to implement individualized plans of care for other children.

To ensure state funds from MDE are expended in a manner which will provide appropriate educational services, the information listed below must be submitted by the lead agency responsible for coordinating the system of care. The following information must be submitted to the Office of Special Education for approval prior to funds being paid:

1. A description of the local or regional system of care to be implemented including the responsibilities of each state agency and the school district(s) involved in the system,
2. The amount of funding to be provided by each state agency for the system of care and an assurance that the funds necessary to implement the system will be available,
3. The timeline for implementing the system of care,
4. The individualized plan of care for the child including the specific plan for support to ensure a free appropriate public education is provided, and
5. An assurance from the school district involved in the provision of the educational program for the child that an Individualized Education Program has been developed and services can and will be implemented in accordance with regulations.

If the school district responsible for providing a free appropriate education does not agree that an educational program can be provided for the child through a system of care, funds from the MDE for that particular child will not be utilized to support the system.

If, for any reason, during the implementation of the individualized plan of care, the district cannot meet the child's educational needs, the MDE, Office of Special Education must be notified by the district prior to an alternate out-of-district placement being made.

The Office of Special Education will then determine the reason(s) for the child's plan not being effective and notify the lead agency responsible for coordinating the system of care that the educational needs of the child can no longer be met by the district. If the district originally placed the child in a facility outside of the district, it will be responsible for determining the appropriate placement for the child. Such placements must be made in accordance with regulations. The district will be responsible for paying \$6,000 or 10%, whichever is greater, of the total cost of such a placement as required by regulations. Federal funds will be utilized to pay the remaining cost of such a placement in accordance with regulations.

If DHS originally placed the child in a facility, it will be responsible for the placement of the child in an alternate setting based on the recommendation of the child's IEP committee. The MDE, Office of Special Education will coordinate such a necessary placement with DHS. The MDE will be responsible for the educational costs and DHS will be responsible for the room and board cost as specified in state law and regulations.

WITNESSETH:

1. Purpose. Teacher has elected to apply to the Department for a loan for the purpose of purchasing a residence pursuant to the Mississippi Employer-Assisted Housing Teacher Program, enacted by Section 37-159-11, Mississippi Code of 1972 Annotated ("Program"). Department has agreed to lend to Teacher the above stated Loan Amount pursuant to the terms of the Program, of which the Teacher is aware, and upon the terms and conditions herein stated.
2. Use of Loan Amount. Teacher shall only use the Loan Amount for the purposes of acquiring a residence within the County in which the District or any part of the District is located.

Rule 76.5 Moving Expense. In accordance with Mississippi Code Section 37-159-5, the Department of Education will reimburse the moving expenses for teachers who enter into a contract with a school district situated within a geographical area of the state that is designated by the Mississippi Board of Education as having a critical shortage of teachers. The moving expenses will only be reimbursed if the contract for employment necessitates the relocation. Employment which necessitates the relocation of a teacher is defined as being greater than or equal to a thirty mile radius. It is not required that the actual residence to which the teacher relocates be within the boundaries of the school district which has executed a contract for employment. However, the teacher must relocate within the boundaries of the State of Mississippi. To be eligible for the reimbursement, the teacher must apply to the school district and the school district must obtain prior approval from the Department of Education for reimbursement before the relocation occurs. The school superintendent will request prior approval by completing and submitting the form Request of Prior Approval from the Department of Education for Reimbursement of Teacher Moving Expenses. The Department of Education will timely notify the school superintendent of its action on the request. Upon approval, the Department of Education will provide funds to the school district to reimburse the teacher an amount not to exceed \$1,000 for documented actual expenses incurred for relocation. The school superintendent will request reimbursement by completing and submitting the form Reimbursement for Moving Expenses. Upon receipt of the funds, the school superintendent will reimburse the teacher accordingly.

Eligible moving expenses consist of:

1. Professional moving companies (documented by actual invoice which indicates a zero balance or paid in full.)
2. Persons employed to assist with the move (documented by original receipts or canceled checks (front & back) or notarized statement signed by both the person employed to assist with the move and the individual moving.)

3. Rented moving vehicles or equipment (documented by actual invoice which indicates a zero balance or paid in full.)
4. Mileage in the amount authorized for state employees under Section 25-3-41, Mississippi Code of 1972 (Ann.), if the teacher uses his/her personal vehicle or vehicles for the move, limited to the shortest distance - one trip - one way only
5. Hotel expense incurred during the move not to exceed \$75.00, limited to one night. (documented by actual invoice which indicates a zero balance or paid in full.)
6. Meal expense incurred during the move not to exceed \$30.00 per day, limited to two days. (documented by actual meal receipts.)

No teacher may be reimbursed for moving expenses on more than one (1) occasion. Two or more teachers who have the same initial address and are moving to the same anticipated address are considered one household, and therefore only one teacher may claim moving expense reimbursement, not to exceed the \$1,000 maximum allowable reimbursement.

students with disabilities within the district or to the nearest adequate facility outside the district in order to provide appropriate educational services. Payment shall be based upon the following formula: $(1/2 \text{ of school district's annual per pupil transportation allotment} \times \text{number of students transported}) + (\text{round trip mileage transported} \times \text{total number of actual days transported} \times 20 \text{ cents per mile})$.

Any assessment of one-half the per pupil allotment shall be based on the child's resident district.

The maximum distance a student with disabilities may be transported or the maximum length of time for a special education transportation route will depend upon the Individualized Educational Program (IEP) for the respective child.

For the purpose of payment, a student with disabilities is defined as any child properly tested and found eligible for a special education program receiving appropriate educational services as stipulated in the Individualized Educational Program (IEP).

Funding for the transportation of students with disabilities will be determined using prior year transportation data submitted on forms provided by the Mississippi Department of Education and based on the formula defined above. The State Board of Education shall not allow any vocational plan funds to be distributed to a local educational agency unless that district has an approved or approvable local plan for career and technical education on file with the Office of Career and Technical Education for the fiscal year in which funds are being requested.

The State Board shall use a formula in allocating federal vocational funds (85% Title II- Carl Perkins) to local educational agencies as required by federal statutes. 2. Counties that have 20% or more of their families below the poverty level.

The Office of Career and Technical Education shall be responsible for making this determination for the State Board and for the allocation of Title III B-Carl Perkins funds and for targeting Title II-Carl Perkins funds.

However, upon good cause shown, the State Board of Education may extend this thirty (30) day period by written notification.

If at the end of thirty (30) days or the end of the extended period, whichever is applicable, the local educational agency has not corrected the deficiencies, the plan will be denied. The Associate State Superintendent for the Office of Career and Technical Education shall notify the local educational agency of this denial by certified mail and include in that letter the following:

1. The reasons for denial;
2. The right to request a hearing at which time the local educational agency is entitled to:

The Associate State Superintendent will notify the local educational agency, in writing, of the date, time, and place of the hearing. A court reporter shall be selected by the Office of Career and Technical Education to record all proceedings, and all witnesses shall be placed under oath by such court reporter.

The State Board shall designate an impartial hearing officer to conduct hearings on local plans. The hearing officer, after hearing all the evidence, shall present a written recommendation and a finding of facts to the State Board concerning the plan within fourteen (14) days after the conclusion of the hearing. Upon receipt of the transcript of the hearing, the State Board shall have thirty (30) days within which to make a determination upon the transcript and the recommendations and findings of facts of the hearing officer and to notify the local educational agency by certified mail of its decision. If any local educational agency is dissatisfied with the final action of the State Board, with respect to the approval of the plan, the local educational agency may within sixty (60) days after such final action or notice thereof, whichever is later, file

with the U. S. Fifth Circuit Court of Appeals a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the State Board, and the State Board thereupon shall file in the court the record of the proceedings on which the State Board based its action as provided in Title 28 U.S. Code, Section 2112.

The findings of fact by the State Board, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand a case to the State Board to take further evidence, and the State Board may thereupon make new or modified findings of fact and may modify its previous action and shall certify to the court the record of the further proceedings. The Fifth Circuit Court of Appeals has jurisdiction to affirm the action of the State Board or to set it aside in whole or in part. The judgment of the Court shall be subject to review by the United States Supreme Court upon certiorari or certification as provided in Title 28 United States Code Section 1254.

All local physical facilities funded through the State Board of Education shall be utilized for the support and conduct of career and technical education programs approved by the State Board of Education. This includes, but is not limited to, the following career and technical education programs: agriculture, trade and industry, family and consumer science, distributive education, business and office, health occupations, guidance services, technical education, cooperative education, customized industrial training and all other specialized occupational and support training not requiring a bachelor's degree, with the exception of programs of nursing education regulated under the provisions of section 37-129-1, Mississippi Code of 1972. Any other use or alteration of the facility other than previously specified shall require prior approval by the State Board of Education.

The facility shall be used for the originally authorized purpose as long as needed for that purpose. When no longer so needed, approval may be requested from the State Board of Education for other purposes. Use for other purposes shall be limited to:
